15TH YEAR. NO. 287.

EAST LIVERPOOL, O., THUESDAY, MAY 17,

TWO CENTS

## SALINEVILLE IS IT WET OR DRY?

Our Neighboring Town Has a  
Chance to Wipe Out the  
Saloons.

ELECTION SATURDAY, MAY 19

What Will the Record Be? Answer  
Must Be Made on Judgment  
Day.

SALOONISTS HARD AT WORK.

The ministers of Salineville, in company with the true hearted women of the Women's Christian Temperance union, backed by every man and woman of that village who desires the downfall of the accursed saloon, will make battle royal, in the name of God and our common humanity, against the liquor demon on Saturday, May 19, the town council having given the voters of the borough the right to decide whether the saloon shall go or stay—whether temperance and good order shall prevail, or drunkenness, disorder and crime hold sway.

There are eight saloons now in full swing in Salineville. Eight hell holes, where young men are graduated for hades. Eight dens of vice, out of which no good, or redeeming, or right, or honorable, or truthful, or just, or merciful, or righteous feature can possibly be evolved or produced. No sane man, no man of good, hard, common sense, will dare assert that any righteous or God-saving, or man saving, or woman saving, or child saving influence was ever produced within the portals of a saloon.

The saloon is a curse to the workman and to his wife and children. A curse to the church of God. A curse to the business interests of any city, town or village. A curse to the rich and to the poor. A curse to young manhood. A curse to young womanhood. An awful curse to fathers and mothers, whose children are dragged down to disgrace, death and to a drunkard's grave, with the gates of heaven barred forever against them, and the gates of hell wide ajar, yawning for their reception.

The citizens of Salineville will voluntarily decide, on Saturday, May 19, whether or not the infamous saloon shall remain in their midst, and the verdict will be recorded in the court of the Great Judge of good and evil, and this record will confront the voters on the day of final judgment.

The Liquor League and its infamous agents are hard at work in Salineville, and have been for many days and nights. Their chief argument, if argument it can be called, is that "the business interests of Salineville will suffer if you bar out the saloon."

This chestnut of the devil is hoary with age, and has so often been proved to be an absolute misstatement, that the man or woman of average intelligence laughs it to scorn. Numerous counties, townships, cities, villages and towns in the United States have barred the accursed saloon out, and the universal verdict is that the result of the process has been increased prosperity, good order and happiness. Two prominent commercial travelers, men who travel all over the states, and who do a big business among the merchants and business men of Ohio, said to the writer:

"Commercial travelers of good repute and straight business character-

istics now give the saloon the go by, and in many, very many cases, have become total abstainers. And the leading wholesale houses of the nation, in every branch of business but that of breweries and distilleries, are clamoring for salesman who do not look upon the wine when it is red or giveth forth its color. Our verdict, from a business standpoint, is that the saloon is a curse to any community, while a drunken and tippling commercial traveler is a condemned nuisance, and does not long hold any position of trust or emolument."

In the light of such evidence, and in the interest of common good, law, order, decency and self protection, Salineville should close up the hell holes in her midst at the election to be held on Saturday, May 19.

JUSTICE.

## THOMAS H. ARBUCKLE

ELECTED STATE TREASURER OF  
THE O. U. A. M.

While Thomas Pickall Was Elected Inside Protector—A. H. Clark on Committee on Appeals.

The persons from this city who have been attending the state council of the O. U. A. M. at Bellaire, during the past week, returned to their homes yesterday afternoon. As usual members of the local order have been elected to state offices. Thomas H. Arbuckle was again elected state treasurer, while Thomas Pickall was elected Inside Protector. The various committees have not yet finished their work, and it is probable that some members of the local council will be appointed. It is said A. H. Clark will be retained as a member of the appeals committee.

## HE HAS GONE.

Edward Cunningham Was Given a  
Short Time to Shake the Dust of  
the City From His Shoes.

Edward Cunningham has left the city, or at least he is supposed to have left, and if he troubles the police department again he will get in trouble clear over his head. Mayor Davidson decided yesterday that Cunningham was not worth what it would cost to send him to the works and instead gave him a very short time to get out of the city.

## LOST CHILD.

The Little Child of Mr. and Mrs. U. S.  
Cunningham Wandered Away  
From Home.

Last evening the two-year and a half old child of U. S. Cunningham wandered away from its home at the corner of Seventh and Jackson streets and caused the family some alarm. It wandered into the store of Chal Peterson and was taken to city hall by Miss Dickey. The father arrived about 9 o'clock and took the child home.

## TO COLORADO.

Dr. O. P. Andrews Will Leave June 1  
to Spend Two Months in  
the West.

Dr. O. P. Andrews, accompanied by his wife, will leave June 1 for Colorado, where he will spend two or three months. While there he will visit Denver and Colorado Springs.

## New Hospital.

The corner stone of the new King's Daughters hospital at Steubenville, will be laid tomorrow afternoon. Hon. John M. Cook will deliver the address.

## DR. FULMER OF BALTIMORE

Called to the Pastorate of the First  
Presbyterian Church Last  
Night.

FOUR BALLOTS WERE TAKEN

Dr. Robinson, of Moncton, Dr.  
Linn, of Pittsburg and Dr.  
Work, of Cincinnati.

WERE THE NEXT IN FAVOR.

The congregation of the First Presbyterian church, at the congregational meeting held last night, extended a call to Dr. L. S. Fulmer, pastor of the Lafayette Square church, Baltimore.

Rev. Laverty, pastor of the First church of Wellsville, acted as moderator and the congregation decided to permit all members to cast their ballots for their preference on the first ballot. Then the four ministers receiving the highest number of votes would be voted on, and the one receiving the lowest number of this ballot would be dropped, leaving three to be voted for on the third ballot. The same action would be taken after this ballot, leaving only two to be voted for, and the minister receiving the highest number of votes on this ballot would be the choice of the congregation and his election if possible would be made unanimous.

The tellers were appointed and the ballots resulted as follows:

First ballot—Dr. Fulmer, Baltimore, 75; Dr. Robinson, Moncton, 40; Dr. Linn, Pittsburg, 36; Dr. Work, Cincinnati, 34.

Second ballot—Dr. Fulmer, 102; Dr. Robinson, 38; Dr. Linn, 47.

Third ballot—Dr. Fulmer, 117; Dr. Robinson, 34; Dr. Linn, 63.

Fourth ballot—Dr. Fulmer, 138; Dr. Linn, 73.

A motion was made that a call be made to Dr. Fulmer. The call was read to the congregation and the elders and trustees were authorized to sign it for the congregation.

Upon motion of Dr. Bailey the pastor's salary was fixed at \$2,500 per annum, payable quarterly.

The call was sent to Dr. Fulmer this morning and an answer is expected from him soon. Dr. Fulmer preached in the First church several months ago and was greeted by immense audiences both morning and evening. He pleased the congregation at both services and is known to be a splendid minister and pastor. He is comparatively a young man, but is recognized as one of the best ministers in the city of Baltimore.

## MALONE GOT OUT.

He Scraped Up Enough Money to Pay  
His Fine and Was Released  
Yesterday.

Michael Malone once more succeeded in getting out of jail and donated \$9.60 yesterday afternoon to the police department of the city. He managed to remain out of jail last night, and it is expected that he has now quit drinking and has gone to work.

## New Swindle.

Here's a new swindle. A pretended census enumerator has been working the farmers near Minerva, by asking

them for statistics about their families and then having them sign the report. Later a bill comes for a large order of useless books for which the farmer finds he has signed. The deception is causing much trouble, but the perpetrators have not been found.

## LIST OF PRIZES.

Knights of Pythias Are Preparing for  
the Celebration on the  
Fourth.

At a meeting last night the Knights of Pythias decided on the prizes to be given for the different drills to be in the parade here on July 4. Formal invitations were sent out today to all companies within a radius of about 100 miles, many of which have already signified their intention to be present. The local company will be out for drill Friday evening.

Following is the list of prizes which will be given: First prize for competitive drill, \$200; second, \$100; third, \$50. The prize for the largest percentage of any company in parade is \$100.

## BASEBALL.

The Line Up for the K., T. & K.—  
Burford Game Tomorrow  
Afternoon.

The line up for the game tomorrow is as follows:

Burford-McNicol — D. Emmerling, catcher; Wines, pitcher; Daugherty, short; Lounds, first; G. Kennedy, second; Hester, third; Callahan, left; Schell, middle; Price or Emmerling, right; sub., Stillwell.

K., T. & K.—Millward, catcher; McShane, pitcher; T. Kennedy, short; Winters, first; Davis, second; Reark, third; Trainer, left; Chadwick, middle; Huff, right.

## WHAT IT COST.

Freeman French Will Pay the City  
\$43.50 Before He Succeeds in  
Getting Released.

Freeman French, who was arrested yesterday for cruelty to animals and malicious destruction of property, had a hearing before the mayor yesterday afternoon. He agreed to pay for the damage he had done to the horse, buggy and harness, and with his fine attached it will cost him \$43.30 before he is released from the city jail. It is expected he will have the cash before the day is ended.

## A SERIOUS ACCIDENT.

The Four-Year-Old Son of William  
Cochran Broke His  
Arm.

The 4-year-old son of William H. Cochran, of Short street, broke both bones of his fore arm Tuesday evening. He fell while trying to walk around the outside of the railing on the porch. The break being close to the wrist makes it a rather serious one.

## Burglarized a School.

The Fourth street school building at Salem was burglarized a few nights ago, and both the superintendent and the mayor of the city claim to know the party who is guilty. It is said that a sum of money in the superintendent's office was taken. Several other articles are reported missing, and arrests will probably follow.

## Sewer Commissioners.

The sewer commissioners will hold a meeting soon in order to take action on bills and also approve the work on sanitary sewer No. 2 as far as it has gone.

## GARBAGE HAULER FRAUDS AT WORK

Doing a Tour of the City Making  
Misrepresentation of the  
Law.

BOARD OF HEALTH ALERT

Will See That Interests of the  
Public Are Protected—Sanitary  
Reduction Rates

SOON TO GO INTO EFFECT.

At present there seems to be too many garbage haulers for the size of the city and an effort is being made to locate some people who are doing a land office business hauling garbage.

Recently it has been discovered that some person has been calling at houses and stating to the people that they must have the garbage hauled away. In one place the price charged was 20 cents a load and in another place the people were informed that it would cost them 10 cents a load and the garbage must be hauled twice a week.

The contract given the Sanitary Reduction company says they must haul the garbage away in air-tight wagons and take it away twice a week for eight cents, provided the residence is not more than six rooms.

The board of health at their meeting will probably investigate the matter and find out when the furnace people will put on air-tight wagons. If the parties who are making the misrepresentations are apprehended it will probably go hard with them.

## THROWN FROM HIS WHEEL.

Harry Halstead's Bicycle Struck a  
Dead Tree Limb on  
Fifth Street.

The wheel of Harry Halstead's bicycle while he was riding on Fifth street last night about 9 o'clock struck the dead limb of a tree which was lying in the street. He was thrown from the wheel, striking the limb and making an ugly gash wound above the knee. He was carried to the office of Dr. Toot, who dressed the injury. It is not thought the wound will be a serious one.

## Mrs. Orr Number Four.

James Orr, a 76-year-old citizen of Millport, who has been married no less than three times, is in Detroit now contracting for his fourth bride. He secured her address through a matrimonial bureau, and had sent her over \$100 before he went for her. Mr. and Mrs. Orr are expected home this week.

## Fined for Fast Driving.

Thomas Mitchison was before Squire McLane yesterday on a charge of fast driving on the bridge, complaint being made by Tollkeeper Todd. He pleaded guilty to the charge and was fined \$1 and costs, which he arranged to pay and was released. The offense was committed last Sunday.

## Succeeds Himself.

The statement that A. G. McKenzie, of Wellsville, had been succeeded as deputy oil inspector by Frank Lewis is denied. Mr. McKenzie has filled the office for four years, and will continue to do so for another term. He filed his \$5,000 bond with County Clerk McNutt this week.

# TRADES AND LABOR COUNCIL MEETING

New Committees Appointed For the Ensuing Year at Last Night's Session.

## NEW DELEGATES RECEIVED

Picnic Committee Named—Resolutions Regarding Municipal Matters Read.

## THE WOMEN'S LABEL LEAGUE.

Trades and Labor council met last night and transacted business of importance.

The following new delegates were received and obligated: Frank Ruppel, local union No. 16, saggermakers; J. C. Hart, local union No. 71, coopers; Ed. Talbot, slipmakers; Joseph Elwell, No. 42; Brother Malon, No. 24; David Watson.

A communication was received from the Women's Union Label league in regard to forming a label league in this city. The communication was read and referred to the secretary, who will notify the label league of the action taken by the committee.

The president then announced the list of committees which consist of the following: Grievance, organization, legislative and credential. It was deemed best to not give the names of the persons on the committee this year.

It was moved that a picnic committee of five be appointed to make arrangements for the labor day celebration. The following committee was then announced by the president: John Powell, John Bolton, James Heckathorn, Leroy Orr, Doc. Thomas.

The following communication was read and referred to the legislative committee:

Whereas, By reason of our city council granting a franchise to a competing telephone company and the establishment of its system, our citizens have lower rates and better service; and,

Whereas, Our citizens have had a like opportunity to be benefited in the matter of electric lighting, and our city council has refused the necessary franchise; be it

Resolved, That it is the sense of this body that the city council should grant the franchise, so that our citizens may receive the benefit of competition.

A resolution commending the action of the library commission in selecting the plans of A. W. Scott for the new library was passed, and a vote of thanks tendered the commission. The council then adjourned.

## Master Plumbers Organize.

Representatives of the master plumbers of East Liverpool and Wellsville met at Wellsville city hall and organized a branch of the state association. Mayor Dennis, of Wellsville, was elected president; John Nagle, of East Liverpool, vice president; William McCormick, of Wellsville, secretary, and Frank Milligan, of East Liverpool, financial secretary and treasurer. The object of the association is to promote the welfare of the plumbing trade.

## Notice to Contractors.

Bids will be received for the building of a brick church at Irontdale for the Disciples of Christ, up to 12 m., Saturday, May 5, 1900. The trustees reserve the right to reject any or all bids. Plans can be seen at the Courier office, Irontdale, Ohio.

# THE STORY OF THE POTTER'S ART

## Side Lights on the Early Production of Pottery and Porcelain.

One of the earliest arts attained by mankind, and of which we have any knowledge, was that of pottery making. The Egyptians themselves had, in the time of Herodotus, who lived and wrote nearly five hundred years before Christ, so lost the knowledge of when they first became acquainted with this art, that they, as is usual with a semi-civilized people, ascribed its origin to the teaching of some divinity. The frequent use in the Old Testament of the terms taken from this industry, and the numerous cases in which figures are drawn from articles of pottery, show, if such a proof were needed, that the manufacture was well established among the Jews, and the domestic articles of pottery were in very common use.

In the East, utensils are often made of pottery of a size so large that we would hardly think them constructed solely of clay. In the story of "Forty Thieves" in the "Arabian Nights," the robbers conceal themselves in jars. The jars first in use in the East for storing oil and wine frequently reach the height of a man, being proportionally broad, and afford a most handy and comfortable place for concealment. A manufacturer in this country recently produced two vases a little over four and a half feet high, but they were not wide in proportion and could not be compared with the production of the Orientals.

While the knowledge of pottery was so widely diffused among the nations of antiquity, yet the Chinese and Japanese are the only people who seem to have had any well-grounded knowl-

edge, long ago, of the art of making porcelain, and at a very early period both these nations carried this art to a degree of perfection never since equaled by any other country.

Among the ancients, the most celebrated manufactories of pottery were those of the Greeks, and the Etruscans, who were settled in Italy before the Romans dominated that country, and who derived their methods and style of decoration from the Greeks. It was the custom of the nations of antiquity to bury large quantities of pottery and other art ware in the tombs of the dead, and even today, in the excavations continually going on, are found excellent specimens of pottery in a fine state of preservation. The decorations on this long-buried pottery have greatly aided scientists and historians in determining the customs and manners of the extinct races who produced them.

In China, the manufacture of porcelain first supplied the demands of Europe, so that the name "China" has come into ordinary use. The Chinese, themselves, ascribe the invention of pottery to the Emperor Hoangsti in 2700 B. C., and that of porcelain to the year 185 B. C. Porcelain, in China, is used not only for domestic, but also for architectural purposes.

Among the ancient inhabitants of Peru and some other countries of South America, pottery had, at the advent of the Spaniards, attained quite a development. In their almost total destruction of the civilization which they found flourishing in these countries, the Spaniards did not spare even the evidences of this art.

## WOMEN FOUGHT.

Mrs. Laughlin Says Mrs. McCord Beat Her With a Club and Broke Her Arm.

Lisbon, May 17.—(Special.)—Yesterday Mrs. Euphemia McCord, of Wayne township, was arrested on a charge of assault and battery preferred by Mrs. Margaret Laughlin.

Mrs. Laughlin alleges that while passing Mrs. McCord's home Tuesday the latter attacked her with a club and gave her a severe beating, breaking one of the bones in her left arm and severely bruising her about the head and body. Mrs. McCord gave bond for a hearing next Wednesday before Squire Riddle.

## AN EFFORT MADE

To Send a Middleton Township Youth to the Reform School.

George Mercer, a ten-year-old lad of Middleton township, was brought into probate court and an effort made to send him to the Boys' Industrial school at Lancaster. Judge Boone concluded, however, that it was best to give the boy another chance to behave himself, and after giving him a lecture sent him back home on trial.

## Railroad Valued.

County Auditor Adams has returned from Cleveland where the auditors of the counties through which the Cleveland and Pittsburg railroad runs, met to fix the appraisement of the road for the taxation for the coming year. The main line was assessed at \$17,500 per mile; the sidings at \$3,000 per mile; rolling stock at \$6,000 per mile and credits and equipment at \$250 per mile. This is about \$200 higher than last year.

## Dropped Dead.

Lisbon, May 17.—(Special.)—Andrew Armstrong, aged 82 years,

dropped dead yesterday at his home in Elk Run township. He was born and reared in that township. From 1866 until 1872 he served as county commissioner. His wife, Mrs. Elizabeth Armstrong, is at the point of death with pneumonia.

## AGAINST PANAMA CANAL.

Report Made by the Senate Committee In Favor of the Nicaragua Route.

WASHINGTON, May 17.—The senate committee on interoceanic canals, through its chairman, Senator Morgan, presented its written report upon the Nicaraguan canal bill.

The committee takes strong position against the proposition to build the canal via the Panama route, paying for the work already done by the French. The declaration is made that the Panama company is practically without assets except those included in the Panama railroad.

"They say," says the report, "they have assets that a committee of experts has valued \$90,000,000. They make no offer or suggestion as to what they would take for it. The lowest sum at which they estimate the cost of completing their canal is \$95,000,000, so that in entering that combine we would go in on the basis of \$185,000,000 for the completed canal on the plan of three levels, if that plan is adopted, against \$138,000,000, which is the highest estimate any engineer has placed on the Nicaragua canal. The difference is \$47,000,000 in favor of Nicaragua."

The committee takes position against holding the pending bill until the Walker commission can report.

On the general question of the construction of a canal the committee takes the position that whatever canal is constructed its ownership must be American, and that delay may be fatal to the success of the enterprise.

## Lisbon's New Coal Fields.

Lisbon, May 17.—(Special.)—Work is progressing rapidly at the new coal fields just west of this city, and it will be but a short time until they will be in operation. The section hands of the Erie railroad began this morning to lay the switches and the carpenters are also at work on the wood work.

## HOPING FOR MAFEKING.

Londoners Believe the Place Has Been Relieved—Roberts Rests, Buller Advances.

LONDON, May 17.—The British public is keenly expectant of the announcement that Mafeking has been relieved. In army circles the opinion seems to prevail that this has already been accomplished.

Douglas Story The Daily Mail's correspondent at Pretoria, wires: "The Boer government is holding back some big news. Feverish activity prevails here. President Kruger is working day and night. The latest Boer bulletin is that the Boer relief column has been defeated with heavy losses."

Lord Roberts remains passive at Kroonstadt. His cavalry is stretching like a semi-circular screen many miles in length with overlapping flanks. The railway will probably be completed today.

General Buller is moving toward New Castle. He appears to be using 25,000 men against 5,000 or 6,000. His operations will almost certainly result in his forcing his way into the Transvaal, possibly in time to co-operate with Lord Roberts' advance, although Gen. Buller is now about 252 miles from Johannesburg, or about 25 days' march.

## BOER ENVOYS MAY STAY IN AMERICA.

An English Correspondent Heard Them Talking In Dutch—Said Their Cause Was Hopeless.

LONDON, May 17.—The Daily Express published this morning a three column New York special, signed by Patrick O'Connor, who crossed the Atlantic with the Boer delegates on the Maasdam, under pretense of being an Irish-American and a Boer sympathizer. Mr. O'Connor understands the Boer language, and he claims to have overheard much private conversation, in the course of which Mr. Wolmarans is reported as saying to Mr. Fischer:

"I think we should be careful of what we say to this man, as he should be a spy. Are you sure he is an American?" Mr. Fischer: "There is no doubt of it. I can tell by his action."

Mr. Wessels: "It would never do, of course, for the British to know we are really in the last extremity or for him to know we are thinking of staying in America."

Then resuming the English language, Mr. Fischer began by blaming Cecil Rhodes for bringing on the war.

Mr. Wolmarans said to Mr. Fischer, in Dutch: "Do you think we had better tell him how Kruger broke off the conferences?"

Mr. Fischer: "No."

Mr. Wolmarans, in Dutch: "Our position just now is precisely that of Jameson at the time of the raid. He expected Johannesburg to rise to his assistance. We expected the same of Cape Colony and Natal. We are bitterly disappointed. Tell him how Schreiner deceived us."

Mr. Fischer: "He knows well, as well as we do, that Schreiner is loyal to Great Britain."

Resuming English, Mr. Fischer said: "We are going to win the war if it takes years."

Addressing Mr. Wessels and using Dutch, Mr. Fischer then said: "We had better not say too much. We are getting badly beaten now. We are going to America in the hope of getting the friendly help of the United States in the cause of peace. That is what we will say to the public. As a matter of fact, we have no hope whatever. We have no cut and dried program."

## TO ENTERTAIN THE BOERS.

Sulzer Announced the Program Arranged For Visit to Washington.

WASHINGTON, May 17.—Representative Sulzer, of New York, announced the following program for the Boer delegates:

On Thursday night a committee, consisting of three United States senators

three representatives and a number of prominent citizens, will go to New York to escort the delegates here. They will leave New York Friday morning and will be met at the depot here by a committee of 200 and taken to the Arlington hotel, where quarters have been engaged by the reception committee. On Friday night an informal reception will be held at the hotel, and on Saturday morning the Boer delegates will call to see the president. On Sunday night there will be a meeting at the Grand opera house, when the three delegates will speak, and there will be addresses also by senators and representatives.

## FOR KILLING A MISSIONARY.

Chinamen Condemned, but Said to Have Bought Substitutes.

VANCOUVER, B. C., May 17.—The Empress of China brings information that punishment has been meted out to the murderers of Missionary Brooks. Fifteen men were tried for the crime before the provincial judge at Chimam Fu, and C. W. Campbell, British consul. It was developed at the trial that only three were guilty of the actual killing and one of these dealt the final blow. This one, being the most culpable in the Chinese criminal code, was beheaded in the presence of the British consul. Another, who was only a shade lighter in guilt, was sentenced to strangulation at the autumn assizes. A third was sentenced to life imprisonment and four others to ten years' imprisonment.

The North China Daily News has a startling story to the effect that the condemned men were allowed to purchase substitutes.

—Thomas Forster spent the day in Pittsburg on business.

## IF WOMEN ONLY KNEW.

What a Heap of Happiness It Would Bring to East Liverpool Homes Hard to do housework with an aching back.

Hours of misery at leisure or at work.

If women only knew the cause; Backache pains come from sick kidneys.

Doan's Kidney Pills will cure it. East Liverpool people endorse this.

Mrs. Mary Hewitt, of St. George st., says: "I read in the Pittsburg Press an account of some one who had been cured of kidney complaint in that city by using Doan's Kidney Pills. The fact of such an account being published of one living in almost the same place had a tendency to convince me that there must be some truth in it, and I determined to try them myself. Some years before this I had a severe attack of rheumatism; for three months I lay helpless, and after that I had trouble with my kidneys. For a year I suffered severely. My back was so bad that it felt as if I had a boil where the kidneys are. I could not bend, lean back against a chair or reach up. I could not lie on my back, and about every move I made caused pain. I had taken numerous remedies, but none brought the desired relief. Well, Doan's Kidney Pills, procured at the W. & W. pharmacy, did what no other remedy was able to do. I took them regularly for a short time, and found them all the Pittsburg paper stated them to be. I can heartily recommend them. After using them I was rid of backache and other symptoms of kidney trouble."

Sold for 50 cents per box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

# SUBURBAN NEWS

## EAST END. SOUTH SIDE.

### Special Meeting.

A series of special services are being held this week at the Second U. P. church. The pastor, Rev. J. R. Greene, is being ably assisted in the work by Rev. D. D. Dodds, of Belmont, O. The meetings will be held every evening this week and Sabbath morning and evening. The subject for tonight's meeting is "Soul Winning."

### Whooping Cough and Chicken Pox.

Quite a number of cases of whooping cough and chicken pox are reported among the younger population of the suburb. Attendance at school is considerably lowered on account of the prevalence of these diseases.

### At Work on Streets.

A force of men has been at work cleaning out the gutters on Mulberry and Pennsylvania avenues. Much of the unsightly rubbish has been removed and altogether the streets present a much improved condition.

### Severely Bruised.

Aaron McDonald met with a painful accident while trying to catch a runaway cow. He stepped on a chain which was around the cow's neck and was thrown to the ground and received several very painful bruises.

### A Boy Born.

John Brand and wife, of Elm street, became the happy parents of a son yesterday morning.

### Among the Sick.

Willis, son of William White, of Railroad street, is sick with symptoms of typhoid fever.

Mrs. Mountford, of Ohio street, is suffering from tonsillitis.

George Harris is sick with typhoid fever.

A child of Charles Thompson, of Railroad street, is quite ill.

### Personals.

Mr. and Mrs. Frank Nolan, of Salem, are visiting their parents in the East End.

Miss Ollie Hall, of Knight, Muskingum county, O., arrived yesterday and will make her home with her brother, H. E. Hall.

## OPPOSITION.

**Garbage Haulers of the City are Talking of Starting a Plant of Their Own.**

The garbage haulers of the city are talking of starting in opposition to the garbage furnace and leasing a piece of land outside the city limits and disposing of the garbage at reduced rates. They claim that they will be driven clear out of the business by the fact that they have to pay 75 cents for every load they haul to the furnace. Some of the restaurant keepers who have been ordered to have their garbage taken away also object because they say they cannot get any person to haul it unless they agree to put up the 75 cents it costs to burn it. They think the furnace should not be started until the company are ready with their wagons to collect the garbage.

### Changes at Chester Mill.

The Chester rolling mill, which has been acquired by the American Sheet Steel company, will be in charge of P. F. Smith, who has charge of the Wellsville mill. Mr. Smith is one of the vice presidents of the American Sheet Steel company.

It is stated that Clarence B. Maylone, president of the council of Wellsville, is to be transferred to the office of the mill at Chester. Mr. Maylone has been with the Wellsville Plate and Sheet Iron company for many years. He began his duties yesterday at the Chester mill, but for the present he is working for the Chester Rolling Mill company. It is stated that as soon as the transfer of the mill to the trust is effected Mr. Maylone will be Mr. Smith's representative in charge of the Chester plant.

### Fire Near Riverview.

The dwelling of Lawrence Glass, about a mile from Fairview on the Frankfort road, burned to the ground Tuesday. Almost the entire contents of the house were destroyed. Mr. Glass being away from home. The fire had gained great headway before the neighbors arrived. The barn caught fire several times, but each time the blaze was put out. The origin of the fire is unknown. The loss is estimated at \$2,000. Mr. Glass carried \$700 insurance on the house and \$200 on the contents.

### First Water Pipe Arrives.

The first car load of pipe to be used on the Southside water line arrived yesterday. The work of digging the trenches and laying the pipes will not be commenced before June 1, as it will be that date before material enough will be on hand to keep the work going as rapidly as desired.

Dallas Ralston, of Fairview, will move to Joseph Allison's farm near Chester.

### Among the Sick.

Mrs. John Martin received a telephone message Tuesday evening that her daughter, Blanche Gamble, was dangerously ill at Hammondsville. Mrs. Martin went at once and brought her daughter home on the noon train yesterday. The trip weakened the sick girl considerably, but she is probably out of danger.

### Moved Their Saw Mill.

Martin & Cameron have moved their saw mill from the farm of J. H. Campbell, near Fairview, to Hiram Allison's. They have the contract for sawing the lumber to be used on the Southside water works.

### More Italian Workmen.

A gang of about a dozen Italian laborers came to the Southside Tuesday evening and began work on the sewer yesterday.

### Personals.

Mrs. Sarah Larkins and Mrs. Ola Robb returned to their home at Toronto after a several days' visit with their brother, W. H. Blakeley.

Mrs. Sadie Herrick and children, of Cleveland, are the guests of W. L. Calhoun and family.

F. P. King, of New Kensington, was the guest of his friend, Claude Hawn, yesterday.

Miss Margaret Allison, of Fairview, was in Chester yesterday visiting Joseph Hobbs and family.

Candidates Hewitt and McDonald were shaking hands with Chester voters yesterday.

## TO REPAY OHIO.

**Congressman R. W. Taylor Introduces a Resolution to Refund War Loan.**

Representative R. W. Taylor introduced a joint resolution providing for the repayment to Ohio of \$425,000, being the interest and amount expended in selling bonds for the purpose of raising money to equip Ohio troops and send them into the field during the civil war. Representative Taylor's father, Robert W. Taylor, Sr., was auditor of the state of Ohio for a year under the Governor Dennison and subsequently under the Governor Todd administration, during which time the money for which the state wishes to be reimbursed, was expended.

The resolution introduced by Mr. Taylor "authorizes and directs the secretary of the treasury" to make the payment. In other words it is mandatory, and if it should be passed, would leave the secretary no discretion in the matter of returning the money to Ohio.

The resolution has been recommended for adoption by the house committee on claims.

## MORLEY TALKS.

**Repudiates Statement That He Has Power to Act as Building Inspector.**

Fire Chief Morley this morning said: "The talk of my acting as building and fire inspector is all bosh. There is no ordinance providing for such work on my part. About 12 years ago Colonel Watson introduced an ordinance to that effect, which was passed. Its life was short for it was killed within two weeks to suit some favored parties. Since that time nothing has been done toward passing another ordinance covering the same ground. Of course if I learn that a building is in danger I have the authority to have matters changed. At that place my authority ends."

## QUARTERLY RECEIPTS

The baby's coming is often looked forward to as a time of dread and danger. Many women are physically unfit to become mothers. They are sick and weak

In a womanly way and may well look with fear toward the time of maternity. Intelligent preparation for this time is most essential. An athlete "trains" for months before his trial. Most women do not "train" at all and yet their trial is to be fifty times as severe as the athlete's.

During the period of gestation every woman should use every means to strengthen the organs that are to be tried. They should be kept in perfect health. The faintest symptom of disorder or disease should be promptly eliminated.

Dr. Pierce's Favorite Prescription is designed to do this very thing—has been doing it for over thirty years. It is the one sure medicine for all female complaints. It is the only medicine that may be absolutely depended upon to practically abolish the pain and danger of childbirth. It is the only preparation of its kind that is the invention of a regularly graduated physician—a skilled and experienced specialist in the cure of diseases of women.

Mrs. Emerson Allen, of Dorset, Ontario, Co., Ont., writes: "I was in very poor health for a long time, dating from the birth of my little girl. I tried different doctors and different medicines. I took four bottles of 'Favorite Prescription' and seem to be perfectly well again."

## An Echo from the Junk Shop

By the Repair Man.

Once you were pure  
As the beautiful snow:  
But thou hast fallen!  
Now your dazzling splendor  
Which glitters in the summer sun  
Pleads to the bargain hunter  
Who will also fall!  
Then his breath will come  
In hard blue pants—  
Like the hired man's—  
And he will consign thee  
To the junk shop  
And buy an Orient.  
Poor Bargain Bike!  
Thou art no more fit  
To be called a bicycle  
Than these lines are  
To be called a poem.

**The Orient Bicycle will drop its price when, like other wheels, it drops its quality and stops winning races--AND NOT UNTIL THEN!**

 asserting that that company "obstructs

Lisbon, May 17.—(Special.)—Count-  
 y Auditor Adams returned last even-  
 ing from a meeting of county auditors  
 held in Canton for the purpose of put-  
 ting a valuation on the Ft. Wayne rail-  
 road. This road passes through 23 3/4  
 miles of this county and a valuation  
 of \$28,000 per mile was made on the  
 main tracks. It is the highest valua-  
 tion placed on any railroad in the  
 state. It is \$9,000 higher per mile  
 than the Lake Shore road. The val-  
 uation on second track was \$7,250 per  
 mile, sidings \$3,500 per mile, rolling  
 stock \$7,500 per mile, credits \$375  
 per mile, station houses \$32,500.

**NO VACATION.**  
 Attorneys May Decide to Keep Their  
 Offices Open All the  
 Year.

It is very likely that the attorneys  
 of the city will take no vacation as  
 they did last year. This is caused, it  
 is said, from the fact that some attor-  
 neys last year transacted business  
 during the last vacation time, while  
 other attorneys were standing by the  
 agreement made to close their of-  
 fices and were off on their vacations.  
 The attorneys do not favor the idea of  
 some closing their offices, while others  
 remain at home to do work.

 it was bass they were after and bass  
 they got to the number of 32. The  
 party consisted of C. T. Larkins and

Corner Stone Laying of St.  
 Stephen's Deferred Until  
 June 10.

**DELAY WILL BE AN ADVANTAGE**  
 Rev. Edwin Weary Has Promises  
 of Several Additional  
 Clergy.

**THE CONVENTION AT CLEVELAND**  
 The annual convention of the dioc-  
 cese of Ohio of the Protestant Episco-  
 pal church, which has been in session  
 in Cleveland for the past two days  
 was brought to a close yesterday after-  
 noon. Rev. Edwin Weary and the  
 delegates from this city who have been  
 attending the various sessions, return-  
 ed to the city on the late train last  
 evening, and they say the convention  
 was the most successful one ever held.

Bishop Leonard, during his address  
 in the convention Tuesday morning  
 paid a glowing tribute to the congrega-  
 tion of St. Stephen's church and the  
 rector for the work they accomplished  
 during the past year.

The members of the regular stand-  
 ing committees, who have served for  
 many years, were elected for another  
 year during the session held yesterday  
 morning.

During this session Rev. A. L. Fra-  
 zer, of Youngstown, chairman of the  
 diocesan committee on institutions, re-  
 ported that he and his committee had  
 thoroughly inspected the institutions  
 of learning at Gambier, and found  
 them in fine condition.

It was resolved to constitute the ex-  
 ecutive committee of the Sunday  
 school institute one of the permanent  
 committees of the diocese.

The date for the laying of the corner  
 stone of the new church being erected  
 St. Stephen's congregation has been  
 deferred one week, the date now set  
 being June 10 instead of June 3. This  
 was done to favor Bishop Leonard.

Rev. Weary since the date has been  
 changed has received assurances from  
 the following members of the clergy  
 that they will be here to assist in the  
 services. They are Dr. Lloyd, of Cle-  
 veland, Rev. E. V. Shayler, of San-  
 dusky, Dean A. L. Frazer Jr., of  
 Youngstown, and Dr. Hinkle, of Steu-  
 benville.

# INJUNCTION CAME TOO LATE

Two Temporary Restraining Orders Issued by Judge Boone Against Street Railway

## TRACKS ON SHERIDAN AVENUE

But the Company Had Tracks Down Before the Court Had Acted.

HEARING TO BE ON JUNE 16.

Lisbon, May 17.—(Special.)—Two temporary injunctions were issued yesterday afternoon against the East Liverpool Street Railway company. The restraining orders were issued to prevent the laying of track on Sheridan avenue, East Liverpool, and were asked for by Thomas Starkey and Ellen M. O'Connor. The petitioners own property abutting on Sheridan avenue and they say that as that thoroughfare is only 30 feet wide if the company is allowed to lay and operate a street railway on that street traffic will be obstructed, their business will be interfered with and their property permanently injured. They also allege that defendant is proceeding illegally, in that it did not have the petition presented to city council, asking right of way signed by half the owners of property abutting on that street.

As Judge Hole is in Cleveland the restraining order had to be issued by Probate Judge Boone.

## TOO LATE.

Street Railway Company Had Tracks Down Before the Injunction Papers Were Served.

It is thought the street railway company anticipated the action of the parties who had the injunction issued, as they had a large force of men at work on the street all day yesterday and before the injunction papers could be served the tracks were down along Sheridan avenue. Mr. Healy, in speaking of the matter this morning, stated that the force quit work when the papers were served, but he had a smile on his face while he was making the statement. He also stated that the people had been clamoring for the company to go to work on the line, but now that they had started in earnest some people seemed to think they ought to quit at once. The injunction cases will be argued June 16.

## NO APPOINTMENT

Has Been Made to Fill Pulpit of Episcopal Church of Wellsville.

The committee on missions of the Protestant Episcopal church have not decided who they will place in charge of the Episcopal church at Wellsville to fill the vacancy caused by the resignation of Rev. Shey, who has had charge of the church for the past year. Some decision will be made in this matter within the next few weeks.

## Will Start About August 1.

William L. Taylor said this morning in regard to the Taylor, Smith & Lee pottery on the Southside that the present indications are that the plant will be in operation the latter part of July or first of August.

## Bitten by Snake.

Isaac Miller, a small boy, accompanied by a number of his companions, while playing this morning in the vicinity of the East End, was bitten

a snake. Miller fainted, but help was procured and the proper antidotes administered.

## IN CARRIAGES.

County Commissioners and Councilmen Went Over the Street Improvements Today.

County Commissioners French, George and Bowman arrived in the city this morning for the purpose of viewing the location of the proposed Dry Run bridge and looking over the recent improvements made to the roads leading out of the city.

Councilmen Peach, Marshall, Cripps, Nice and Arnold took a day off, secured the engineer and getting enough carriages to go round started to the East End with the county officials. They spent the morning viewing the proposed location for the new bridge and casting eagle glances at Pennsylvania avenue as they came back. They arrived home a few minutes before 1 o'clock covered with dust, but having the satisfaction of knowing that they had finished a portion of their work. This afternoon the same parties took a tour of Jethro street, Trentvale street, Calcutta road and Lisbon street, and the commissioners were shown the immense improvements finished and contemplated. The commissioners will arrive at their decision in regard to the bridge and roads when they return home and have a session.

## STEEL CEILINGS.

Being Placed in Auditorium of the M. P. Church—Work Will be Finished by June 1.

This afternoon workmen commenced placing the steel ceiling in the auditorium at the Methodist Protestant church. The contract will not be completed until June 1.

The official board of the church met early in the week to open bids for the repairing of the walls of the church, but the contract was not let. While the improvements are being made in the auditorium services will be held in the lecture room of the church. The cost of the improvements will amount to about \$750.

## GOING TO SIBERIA.

Tal McCain to Go There Soon to Work Drills for a Beaver Falls Firm.

Tal McCain, of Beaver Falls, who was once a resident of this city and well known here, will leave next Tuesday for New York, from which port he will sail for Siberia. He will be accompanied by another man from Beaver Falls.

When McCain lived here he was employed at the lower works of the Patterson Foundry and Machine company. When the strike of the machinists was started McCain went to Beaver Falls, where he has since been employed. Last week the Keystone Drilling company shipped two of their latest improved mining drills to Tomsk, Siberia for a mining company composed of Russian and English capitalists. There are no persons in Siberia who are familiar with the workings of these new drills, and McCain and another Beaver Falls man have been selected to go. The men will go first to England, and then to St. Petersburg and from there to Tomsk by rail. They will be gone six months, and will receive \$100 a month and all expenses. They may return here about December next.

Tomsk is a small city in the western part of Siberia, is situated on the Obi river and has a population of 1,300. It is a capital and a prominent commercial city. It is but a short distance north of the Trans-Siberian railroad.

## AN INCREASE

Wanted by Kiln Drawers at Goodwin's Pottery—Men Quit Work.

The kiln drawers at the Goodwin pottery this morning wanted another workman added to their force, and as this was not done the men quit work. A call was made at the office of the company this morning, but nothing was known there of the trouble.

## Buried Yesterday.

The funeral of Everett Smith took place yesterday afternoon from the family residence on Calcutta road, interment being made in Riverview cemetery. Rev. Clark Crawford officiated at the funeral. The pallbearers were young men who were companions of the deceased during life.

## Will be Home Saturday.

John C. Hanley, of East End, who graduated from the Allegheny Theological seminary Tuesday evening, will return to his home Saturday. He will remain here about a month and then leave for Fresno, California.

## Appointed Commissioners.

Lisbon, May 17.—(Special.)—W. G. Bentley and A. M. Fisher were appointed by the commissioners to establish a new road across the railroad tracks at New Waterford.

## Warm Waste.

The New Waterford Magnet in attempting to dispose of accumulated waste paper, etc., just missed destroying the village by fire. Fences and sheds burned briskly for a time.

## Rough on Humanity.

The Salem Spiritualists Association has been granted a charter. It is their intention ultimately to erect a church in Salem dedicate it to humanity free of cost.

## Court Adjourned.

Lisbon, May 17.—(Special.)—Court has adjourned until 1 o'clock Friday, when Judge Hole will render opinions in all cases which have been submitted to him.

The oil must be added very gradually. After this has been thoroughly beaten add two dessertspoonfuls of mixed chopped olives, capers and gherkins.

## THE AIR WE BREATHE.

An Average of One Cubic Foot Consumed Every Two Minutes.

"Man wants but little here below" is an axiom which applies markedly to the quantity of air which is necessary to support life. It is estimated that when a man is at rest he consumes 500 cubic inches of air every minute, an allowance which at the first glance appears large.

It is, however, absurdly small when we consider that at this rate of consumption it would take a man 5 days and 9½ hours to exhaust the air in a small room 15 feet square and 10 feet high.

Any form of exertion, however, greatly increases the consumption of air. Thus if we saunter at two miles an hour we require just twice as much air as when sitting in our armchair, and at four miles an hour nothing less than 2,300 cubic inches will satisfy us.

Taking an average consumption throughout life of one cubic foot of air every two minutes, we reach some very interesting conclusions. Thus an hour's supply of air could be contained in a trunk 5 feet long, 3 feet wide and 2 feet deep.

In a day we should exhaust a small roomful, 10 feet long, 7 feet wide and 10 feet high.

For a year's supply we should require a reservoir or hall 100 feet square and a shade over 26 feet high, and the supply for a long life of 80 years would be contained in a large hall 1,000 feet long, 500 feet wide and 42 feet high.—Chicago Times-Herald.

## Kingsley's Way.

I go at what I am about as if there were nothing else in the world for the time being. That's the secret of all hardworking men, but most of them can't carry it into their amusements. Luckily for me, I can stop from all work at short notice and turn head over heels in the sight of all creation and say, "I won't be good or bad or wise or anything till 2 o'clock tomorrow."—Charles Kingsley.

Dorothy—Oh, awfully rich; rich enough to snub people and still be called agreeable!—Chicago Record.

## HEROIC AMERICANS.

### MacArthur Sends Information of Fight at Catubig.

### OUR LOSS HEAVIEST OF THE WAR.

Little Garrison Tried to Escape, but Failed—Stood Off Rebels Until Relieved—Filipino Dead Strewed the Streets of the City.

WASHINGTON, May 17.—The officials of the war department, after waiting for nearly a week to hear something from General MacArthur, at Manila, confirmatory of the press report of the bloody three days' engagement at Catubig, which resulted in the heaviest loss of life the American army has sustained in any one engagement in the Philippines. General MacArthur's cablegram in reply was as follows:

"MANILA, May 16. "With reference to your telegram of 11th. The rumor of engagement in Samar, reported cablegram of General Otis, May 4, has been confirmed by reports recently received from Henry T. Allen, Forty-third regiment, United States volunteer infantry, commanding Samar island. That detachment of 30 men stationed at Catubig were attacked April 15 by 600 men, with 200 rifles and one cannon. Our men quartered in convent, which was fired next day by burning hemp thrown from adjoining church. Detachment attempted escape by river. Men getting into boat were killed; remaining men entrenched themselves near river and held out two days longer, facing most adverse circumstances until rescued by Lieutenant Sweeney and ten men. Over 200 of attacking party (many of them are reported to have come from Luzon island) reported killed and many wounded. Lieutenant Sweeney reported streets covered with dead insurgents.

"Killed—Sergeants Dustin L. George and William J. Hall, Corporals Herbert H. Edwards and John F. J. Hamilton, cook, Burton E. Hess; musician, Burton R. Wagner; privates, Treffie Pomslow, Otto R. Loose, Stephen Appert, Joseph Noel, John E. Kuhn, Ralph H. Zim, Edward Branan, Chester A. Conklin, Walter E. Collins, Joseph J. Kerins, Henry Dumas, Philip Saling and Geo. A. Slack, all Company M, Forty-third regiment, United States volunteer infantry.

"Wounded—Privates Lester Ruchworth, Harry C. Lee, Michael J. Faron, Jas. H. Clancy, Company H, Forty-third regiment, United States volunteer infantry; Corporal White, F. Forty-third volunteer infantry. Corp. of Henry T. Allen's report forwarded by mail yesterday. Iloilo (Panay) cable is broken by earthquake. Difficult to procure more definite information.

"MACARTHUR."

### G. A. R. HOME BURNED.

Pennsylvania Institution Destroyed Near Pittsburgh—Heroic Rescues of Aged Inmates.

PITTSBURGH, May 17.—Fire, with scarcely any water to combat it, made complete ruin of the handsome home at Hawkins station, Pennsylvania railroad, maintained by the Ladies of the Grand Army of the Republic of Pennsylvania for the support of widows, mothers and orphans of Civil war soldiers. The blaze was spreading rapidly when discovered, at a time when all of the 40 aged inmates were indoors.

Half of this number are palsied from age, others crippled with rheumatism and nearly all too helpless to walk. The presence of fire caused a general collapse and 13 had to be lifted and carried to places of safety. There were some brave rescues and possible death was averted.

The loss to building and contents will possibly reach \$16,000. This is almost covered by insurance. Judge William G. Hawkins has turned a large house of his estate over for the temporary use of the inmates until a permanent building can be secured.

### M'NEILL PROVED A HERO.

British Ex-Gunner Saved Lives in Chicago Fire—Three Persons Perished.

CHICAGO, May 17.—Three persons lost their lives in the burning of the Hotel Helene, on Fifty-third street. The injured number 15, of whom four are in a precarious condition.

The Dead.

Charlotte Peterson, dining room girl,

found in her room, burned to a crisp. Lena Pearson, dining room girl, found beside Miss Peterson.

S. G. McHaddin, so badly burned that he died at the hospital.

The dangerously injured are W. E. Horn, E. E. Tarbux, Elizabeth Florence and Mrs. T. D. Allen. The two men are badly burned, and the women were injured by jumping from the high windows.

The destruction of the hotel was replete with daring rescues and narrow escapes, in which James McNeill earned himself the title of hero. He was a porter in the hotel. He was formerly a gunner on an English war vessel.

### A DAY IN WALL STREET.

Railroad Stocks Made a Good Showing. More Gold Engaged For Shipments.

NEW YORK, May 17.—Stocks of railroad companies made a demonstration of persistent strength in the stock market Wednesday. The stocks of western railroads were easily the leaders in the movement, and the buying was attributed to western account, as for several days past. The western buying is believed in Wall street to be covering an outstanding short interest, prompted by the good crop weather and favorable conditions in the winter wheat belt.

The steel stocks all rebounded sharply on covering by shorts and official denials of assertions that general shut-downs were imminent on account of prospective demands for increase of wages. The early weakness of Sugar, People's Gas, the Tobacco stocks and other industrials was met by denials of various rumors which accompanied the decline. Recoveries ensued on the demand from the bears caught short. Besides this weakness in the industrial list the market had to contend with the announcement of gold engagements for export today, fully a million dollars in excess of the preliminary estimates.

Today's shipments foot up fully \$3,150,000 for France. The fact that so large a shipment should be made in face of the considerable decline in discount rates in Europe raised some uneasiness, lest the apparent ease of money abroad was fictitious and unstable. But the continued ease of money here relieved this apprehension. Call loan rates fell to 1½ per cent, and the gains by the banks from the sub-treasury and on the interior movement of currency will entirely offset the gold export.

Although the advance in stocks was generally wiped out when the gold engagements were announced, the upward movement was resumed upon further consideration of the circumstances. It is the conviction in Wall street that only a small amount, if any gold, can be shipped to London on Saturday's steamer under present conditions.

The bond market was dull and only partly shared in the strength of stocks. Total sales, par value, \$1,133,000. United States refunding 2s, when issued, declined ¼ and the 3s ½ in the bid price.

### Chicago Grain and Provisions.

CHICAGO, May 17.—Corn was the leading deal on the board of trade Wednesday. Renewed support from bulls and covering by shorts, together with strong cables, caused a gain for the day of 1½c. Wheat was strong on the unfavorable weather, closing ½c@6c improved. Oats closed ¾c higher and provisions from 7½c better in ribs to 20c up in pork.

### Kansas Republican Convention.

TOPEKA, Kan., May 27.—The Republican state convention here renominated the present state officers unanimously. The only balloting was on candidates for electors, for congressman-at-large and for M. A. Lowe for delegate to Philadelphia. The factional war in the party was not involved in the vote on electors, but the followers of Cyrus Leland, national committeeman, made a fight on Lowe, and were overwhelmingly defeated. Lowe will likely be named as national committeeman to succeed Leland.

### New A. M. E. Bishops to be Elected.

COLUMBUS, May 17.—The majority report of the committee on Episcopacy of the A. M. E. general conference provided for the election of five additional bishops, and set May 17 for the election, and struck out the rule in the discipline prohibiting ministers from wearing robes. It was adopted.

### CLARK WILL HARDLY BE SEATED.

Governor Smith Indignant, But Stumped Over the Appointment.

WASHINGTON, May 17.—It is said here that the senate will hardly seat Clark. WADSWORTH, Nev., May 17.—Governor Smith, on his way to Montana, expressed indignation over Clark's appointment, but said he did not see how it could be overcome.

### Presbyterian General Assembly.

ST. LOUIS, May 17.—The Presbyterian general assembly is to convene here today.

## THOMPSON JAILED.

### This Action Taken After He Had Confessed.

### HE ADMITTED IRREGULARITIES.

Wood and Inspectors Thought It Best to Give Him and Others a Chance to Secure Bail—Congress Aroused Over the Recent Exposures.

HAVANA, May 17.—Postmaster E. R. Thompson, of the Havana local office, has signed a sworn statement in which he says that Sept. 16 last, being in need of money, he took from the money order funds, giving his memorandum as a receipt for the same. When the inspections were held Mr. Thompson ordered a clerk in charge of the money order department to place remittances received that day, which would not have to be accounted for until the following day, sufficient to cover the amount of his receipt, which was then withdrawn until after the inspection. This was kept up until April 7, when the special agents unexpectedly discovered the receipt, which Mr. Thompson then paid.

He also admits that Charles F. Neely, late financial agent of posts at Havana, endorsed a bill for \$350, which Thompson had discounted by the North American Trust company. Thompson admits other irregularities in connection with his department.

Warrants were issued for the arrest of Thompson, W. H. Reeves, deputy auditor of the island, and Edward Moya and Jorge Mascaro, Cuban clerks in the stamp department, and all were lodged in the Vivas, the tombs of Havana. This was done under the advice of the postal inspectors, who had arrived. It is considered now that Reeves is equally guilty with Neely.

General Wood felt, as did the postal inspectors, that it would be better to have suspected persons arrested and to give them an opportunity to obtain bail, than to keep them indefinitely under close supervision at a time when the detectives are badly needed for other work. More arrests are expected.

WASHINGTON, May 17.—Fourth Assistant Postmaster General Bristow received his final instructions and left for Tampa, Fla. from which place he will sail for Havana, reaching there early Saturday morning. The only person to accompany Mr. Bristow was his private secretary. It was decided at the department not to make public at present the instructions given Mr. Bristow. Representative Hay, of Virginia, introduced in the house a resolution requesting the postmaster general for information as to whether Director Rathbone had reported that the accounts of postal officials in Cuba were found to be correct April 23. The postmaster general would make no statement in regard to the subject.

It is a fact that Director General Rathbone did forward a typewritten copy of a report made by Special Agents George O. Seybold and William T. Neale, stating that the accounts of C. W. F. Neely, financial clerk of the postal department, were correct on that date.

### ADMINISTRATION IN CUBA.

Conduct of Affairs in the Island Discussed in the Senate—Bacon Advocated Investigation.

WASHINGTON, May 17.—Discussion of the administration of affairs in Cuba by agents of the United States occupied the attention of the senate during a part of the session. Mr. Bacon (Ga.) addressed the senate at length on his resolution directing the committee on relations with Cuba to make an investigation of the conduct of financial affairs of the island. He said it was due the people of this country to know just how affairs in the island were being conducted, and since the disclosures of the past few days had been made with respect to the alleged misappropriation of funds in the postal service, the obligation upon congress to make an investigation was doubly heavy.

He urged that the honor of the country depended upon its being able to clear away the fraud and corruption which, it was charged, had been discovered. He insisted that the government of the United States had no authority in Cuba, and demanded to know how it proposed to redeem its pledge and leave the government of the island to its inhabitants.

# M'KINLEY'S CRITICS.

## Anti-Canteen Fight Won In the M. E. Committee.

### FRIENDS WILL OPPOSE ADOPTION.

The Question to Be Disputed on the Floor of the Conference — Secretary Long Eulogized For His Stand on the Liquor Question.

CHICAGO, May 17.—The friends of President McKinley in the temperance committee of the conference, who had made a losing fight against the adoption of certain paragraphs in the report which criticize the president and censure him for his acceptance of the Griggs decision in the anti-canteen law, will take the fight to the floor of the conference in the form of a minority report, substituting other paragraphs for the objectionable sentiments.

The majority report of the sub-committee on all matters before it, including the criticism of the president, was adopted by the general committee, after a long fight. The report endorses total abstinence on the part of the members and ministers of the church and fraternity with other societies and organizations in the cause of temperance.

In regard to the liquor traffic, it endorsed the sentiment of the episcopal address that "it can never be legalized without sin," and declared that licensing it legalizes it. In contrast to the condemnation of the president on the anti-canteen matter was an eulogy of Secretary Long by banishing liquor from the American naval ships and yards.

Delegate William A. Odell, of the Oregon conference, introduced a substitute report to the effect that the energies of the church should be bent only to the salvation of souls. It was voted down.

Two additional missionary bishops, with authority equal with those already in the field, will be elected by the general conference to assist Bishop Thoburn in Southern Asia, if the recommendation of the committee on episcopacy is adopted.

The report of the committee will be presented to the conference today by Dr. T. B. Neely. Dr. J. M. Buckley, chairman of the committee, objected to that provision of the recommendation which makes all the missionary bishops co-ordinate in authority on constitutional grounds and gave notice that he would present a minority report.

Bishop Walden appeared before the committee on episcopacy to answer charges brought by the Wisconsin conference that he had exceeded his authority two years ago when he denied preachers the right to submit a petition in favor of a candidate for presiding elder.

In defense of his action Bishop Walden called attention to the fact that there is nothing in the law of the church which grants ministers the right to petition.

After considerable discussion the subject was referred to a sub-committee, composed of J. C. W. Coxe, T. H. Murray, Dr. T. B. Neely, L. M. Shaw and Dr. L. F. Whitlock.

## VOTING FOR BISHOPS.

Two More Ballots Taken at the M. E. Conference In Chicago, Without Result.

CHICAGO, May 17.—The Methodist Episcopal general conference took two more ballots for the selection of two additional members of the board of general superintendents. Tuesday's ballot and the first one Wednesday resulted in no choice, none of the candidates receiving the necessary two-thirds vote of the conference. The result of the third ballot will be announced to-day. Dr. J. F. Berry, editor of The Epworth Herald, and Dr. J. W. Hamilton, of New York, showed the greatest strength on the second ballot; Dr. J. W. E. Bowen, of Gammon Theological seminary, the colored candidate, showing considerable falling off in his vote. The only surprise developed was in the small vote of some of the most prominent candidates.

The proceedings Wednesday were enlivened by a sharp discussion which arose over charges made by Judge Oliver H. Horton, of the local entertainment committee, that delegates had insulted ushers, overridden policemen and beaten their way into the conference, after giving away their admission tickets. He asked that action be taken in the matter, and after several minutes had expressed their opinion, Judge Horton was instructed by his best judgment in guarding the interests of the delegates.

The result of the third ballot for bishops, it is said, will show a gain of upwards of 40 votes for Dr. J. F. Barry and a corresponding loss for Dr. Bowen, the colored candidate. Many of the leaders declare it will take at least six more ballots for any of the candidates to secure the requisite two-thirds vote and that the balloting for bishop may consume a week's time.

## THE G. P. ASSEMBLY.

Church Delegates Are to Convene at Chattanooga, Tenn., Today—Subjects to Be Considered.

CHATTANOOGA, May 17.—The Cumberland Presbyterian general assembly will convene in this city today.

Among the most important questions to come before the assembly will be the twentieth century million-dollar endowment for church colleges and the twentieth century Sunday school movement, by which it is proposed to add 50,000 pupils to the Sunday schools of the Cumberland Presbyterian church during the next year.

## BRYAN'S CHANCES GOOD.

Arthur Sewall So Declared — Said He Would Not Be In the Race For Vice President.

NEW YORK, May 17.—Arthur Sewall, of Maine, who was the candidate for vice president on the Democratic ticket in 1896 with W. J. Bryan, in an interview here, said: "I think Mr. Bryan's chances for election are bright—very bright. In fact, I think he will have a better chance than he had in 1896. Of course, this is upon the supposition, generally admitted, that he will be the candidate."

"Would you accept the democratic nomination for vice president?" he was asked.

"No," said Mr. Sewall, promptly and emphatically. "I am out of it; I am positively out of it."

"Who will the convention nominate for the presidency? I cannot tell. It would be a mistake to send the nominee in New England. Our candidate for vice president should be chosen with the idea of getting electoral votes."

### TOWNE'S NOMINATION GOOD POLICY.

Such an Assertion Made by Senator Butler, In an Interview.

WASHINGTON, May 17.—Senator Butler, chairman of the national committee of the People's party, was asked if it was true, as has been reported, that both Mr. Bryan and Mr. Towne had expressed a preference that the People's party national convention should not nominate a vice presidential candidate. He replied:

"I have been told that it is true, but it was the judgment of the convention that the best way to elect both of them was to nominate. It must be remembered that neither Mr. Bryan nor Mr. Towne is intimately acquainted with the situation as to the Populist vote of the convention. Mr. Bryan could not be elected by disbanding or appealing to disband the People's party. To have done so would have lost him ten Populist votes for every Gold Democratic vote that he would have won back to him. In short, the convention did the thing that was necessary to be done to insure the election of Mr. Bryan.

### Broke Away From the Bosses.

KANSAS CITY, May 17.—The Missouri Republican convention selected for delegates at-large to the national convention at Philadelphia: D. M. Houser and D. P. Dyer, of St. Louis; James L. Minnis, of Carrollton; C. G. Burton, of Nevada. Alternates-at-large: Louis Woods and J. C. Chastine, of Kansas City; O. M. Wood, of St. Louis; H. H. Walker, of St. Joseph. Electors-at-large: J. W. Moore and Joseph Black. For governor, Joseph Flory, of St. Louis, was nominated, also a state ticket. The convention broke away from the bosses in nominating Dyer, the first time in about 20 years.

### ST. LOUIS STRIKE STILL ON.

Strikers Refused to Ratify an Agreement Arranged.

ST. LOUIS, May 17.—The executive committee of the strikers rejected the agreement arrived at between the Transit company and the strikers' grievance committee. The strike is still on.

### For a Pension to Mrs. Lawton.

WASHINGTON, May 17.—Among the bills passed by the senate was one granting a pension of \$100 per month to the widow of General Lawton.

### To Incorporate Red Cross.

WASHINGTON, May 17.—The house accomplished little beside passing the senate bill to incorporate the American National Red Cross.

The Chester Junior Mechanics this evening will visit the Mechanics of Wellsville.

The Junior Rechabites, at their meeting last evening initiated two candidates.

O. N. Ralston left for Sebring this morning, where he will take a position at the Oliver China pottery.

The African M. E. Sunday school convention for the Beaver Falls district will be held in this city in July.

The sample room at the Murphy pottery has been renovated and painted. The room is now one of the neatest in the city.

Clay Berger, station agent at Irondale, spent last evening in the city visiting friends. He was formerly a clerk in the local freight office.

At the new pottery at Sebring work is progressing rapidly and the clay shops, slip house, engine room and mould room are now under roof.

William Moore, who has been working at Frederickstown for several months, left this morning for Salineville, where he has taken a position.

Guy Mackey, of Lawrence street, West End, who has been very ill at his home with typhoid fever, is recovering and will be able to be out within a few days.

William Tritt, manager of the Sebring pottery in this city, left this morning for Sebring, where he spent the day on business connected with the Oliver China pottery.

Louis B. Dannemiller, of Canton, formerly a member of Company F, Eighth Ohio Volunteer Infantry, has been engaged as starter for the races that will be held in this city May 30.

J. F. Bradshaw, of Washington, Pa., was in the city yesterday calling on his many friends. Mr. Bradshaw is a representative of the National Pottery company throughout western Pennsylvania.

Mr. and Mrs. George Heinman, of Pittsburg, who had been spending several days in this city visiting friends, returned to their home in Pittsburg yesterday afternoon. The couple were recently married.

The new Pullman chair cars, which were placed on trains 337 and 338 a few weeks ago, have been taken off the road and two other Pullman chair cars have been substituted. These cars are not furnished as well as the new cars.

The clerks at the local freight office have been compelled to work late at night during the past 10 days on account of the increased business now being handled by the company in this city. The clerks claim that there is sufficient work to warrant the company putting on several extra clerks.

## A MAN OF SCHEMES.

THE GRAND PROMOTER EXPLAINS MATTERS TO HIS LANDLADY.

His Little Account Is Under Discussion, and He Shows Her That She Is Flying Along the Road to Wealth Thus He Dodges a Calamity.

(Copyright, 1900, by C. B. Lewis.)

The grand promoter expected it. For the past week he had observed many signs that his landlady had lost confidence in him and was working up her nerve to present him a bill. His cheerfulness at the dinner table almost bordered on hilarity, and as he left the table he executed a flank movement by saying:

"My dear woman, if it is not asking too much, I wish you would hand me my account this evening. I don't want to occupy your valuable time nor put you to any extra trouble, but it seems to me that we ought to have a settlement without further delay."

He hadn't been in his room two minutes when the landlady followed. She had the bill in her hand and the light of anticipation in her eyes.

"Ah!" said the major as he took the bill from her hand. "Nothing like promptness in business affairs. Let me see. The bill itself is made out in proper form. The chirography is fair. Room and board for ten weeks at \$7 per week makes exactly \$70, and there is no mistake there. My dear woman, permit me to congratulate you. You have a business head on you. Had you

"AND YOU MEAN I OWE YOU \$930?"

needed this money before you would have asked for it. Not having any need of it and having perfect confidence in my financial integrity, you have held the bill till this date. Exactly ten weeks and \$70."

"Yes, sir, \$70," replied the landlady as she moved about uneasily.

"While it is only a trifle," continued the major as he looked the bill over again, "it should be paid and the books balanced—that is, if there is anything coming to you it should be paid at once; if there is anything coming to me I'll give you 30 or 60 days to square up."

"But how can there be anything coming to you?" protested the landlady.

"We can't tell until we have figured. My dear woman, my treasure of a landlady, let me say at the very outset that I am perfectly satisfied with your table, and as for my room kings have had far worse. If you will kindly go over the past in your memory you will admit that I have not made one single kick; satisfied, my dear woman, perfectly satisfied."

"Then the bill is all right?"

"Perfectly all right—couldn't be better. Let me see. When I organized the Universal Hand Organ trust I let you in on the ground floor for \$50,000 worth of stock, I believe. That stock ought to have given you dividends of at least \$5,000 a year."

"But it didn't, major. The whole thing busted up, you know."

"Ah, I remember. It was not a bust up, but the Hand Organ trust was consolidated with the Great American Antiblizzard syndicate. I haven't the books here, but if my memory serves me right I presented you with \$100,000 worth of stock. If your annual income from that stock has reached the sum of \$10,000—if you have been enabled to purchase—"

"But I never saw any stock," protested the landlady. "You said something about it one day, but a week later you claimed that you had dropped the scheme for a better thing. You owe for ten weeks."

"Let me see," mused the major—"let me see. Did I drop the Hand Organ and Antiblizzard trust for a surer thing? Ah, it comes back to me! Yes; we let go of it to take up and push to success

the International Nursing Bottle monopoly. Object was to control the manufacture and sale of all the nursing bottles in the world. Any mother who refused to buy one of our bottles had to feed her infant from a trough. Each and every one of our bottles was provided with a squirt gun, and when the infant wasn't filling up on milk he was squirting at flies and developing his marksmanship. That monopoly was capitalized at \$50,000,000, I believe. You were let in on the ground floor. As my landlady I took you in first of all. My dear woman, if your dividends on that stock—"

"But I haven't had any. That was another of your schemes that busted."

The major looked at her for a moment in doubt and perplexity, but then his face cleared, and, reaching for her hand, he shook it heartily and exclaimed:

"My dear woman, what a business head you have on your shoulders—what a head! It is no wonder that your landlord never has to come twice for his rent and that the fame of your table has spread abroad through the land. Let me assure you that I am not only satisfied with everything up to date, but I mean to continue on with you indefinitely—for years and years."

"But you must pay. I can't run my house unless my boarders pay."

"While perfectly assured that the International Nursing Bottle monopoly would pay 20 per cent dividends," said the major as he walked about, "we decided to drop it for a better thing. You must know the difference between 20 and 40 per cent profit—you surely must."

"Of course I do."

"Then I needn't go into details. You will see at once why we went into the Physical Pick and Ax Handle syndicate. It was the difference between 20 and 40 per cent. That organization was perfected only three days ago, and I have seized the earliest opportunity to talk with you about it. You are to come in on the ground floor. When Major Crofoot gets hold of a good thing, he remembers his friends. Not only have you as my landlady fed and lodged me on the best in the land, but—"

"But you are behind ten weeks," she put in.

"But, my dear woman, you did not stop there. You showed your confidence in my integrity by allowing my indebtedness to accumulate until it has finally reached the figure of \$70. Where can such another landlady be found? Who will point me out another such case of financial confidence? But you shall be rewarded. People who repose trust in Major Crofoot cast their bread upon the waters to have it returned 20 times over. You will remember that this is an interview of my own seeking. Had I not sought it you would have let me bill run on for weeks and months yet."

"No, I wouldn't!" exclaimed the woman. "I've been trying to catch you for the last two weeks!"

"But I sought the interview," serenely continued the promoter. "I brought about this meeting in order that we might balance the books. My dear woman, you are a stockholder in the Physical Pick and Ax Handle trust. You are in on the ground floor. I have set aside for you \$10,000 worth of stock at 10 per cent of its face value. That's \$1,000. You know how it is when a man strikes a blow with pick or ax. He grunts. We make all our handles hollow. They do the grunting and save the man's vitality—makes the labor 10 per cent easier, and every laborer wants to work 11 hours per day. In six months we shall be supplying the world—profit of 10 cents in every handle and 1,000,000,000 used every year."

"But this ten weeks' bill?" she insisted.

"Yes, we now come to the bill. Your ground floor stock comes to \$1,000. Take \$70 from that, and we have \$930 left. In other words, you owe me \$930. But take your time, woman—take your time. Take 30, 60 or 90 days if you will. I have confidence in you."

"And you mean I owe you \$930?"

"As you see, my dear woman—as you see. Look over the figures for yourself—exactly \$930, and you needn't worry about it. Our first call on the stockholders is only for 3 per cent, and if you haven't the money I'll lend it to you. And that's all tonight, I believe."

"But I—I don't understand!"

"But you will after thinking it over. Run along now and think. Plain as day after a little reflection. Don't want to push you out, you know, but really I'm very busy, and you also want to figure it out. Don't worry—and don't worry, and good night to you."

### Bridge Builders' Fright.

Bridge building is a perilous business, and no insurance company will take any risk on the lives of superstructure workers. There is one horrible sensation known to superstructure workers. It is something like stage fright.

"I know once," said one of them, "when I wasn't up more than 140 feet, a sudden feeling came over me that I couldn't get down. I looked down, and there was a swift tide swirling around the edges of the piers. It seemed to me I should surely be killed. I clasped both arms around the beam on which I was working and lay there, just clinging to it, for 20 minutes. Luckily for me, the foreman, who was near me, saw what was the matter and had sense enough not to speak to me. If he had, I know I should certainly have fallen off. He kept on working, and I clung helplessly to the beam. Finally, in a gruff voice, he growled at me: 'Say, git out of there! I want to put a rivet there.' And I, obedient to an instinct of duty, found myself moving along. The feeling passed away as I did move and didn't come back."

"When I was in Peru building bridges," said an engineer, "I did not lose my head at work, but I more than once woke up during the night hanging to the sides of the bed in desperation of fear to keep from falling in a nightmare."—Boston Herald

### All Fools' Day.

The custom of playing pranks on April fools' day probably had its origin in France, the first nation to begin the new year Jan. 1 instead of March 25. Before the change April 1 was the day when the merrymaking of the New Year's celebration culminated in the paying of gifts and visits in return for those already bestowed. When the reformed calendar in 1564 made the 1st of January the beginning of the new year, April 1 was the time for pretended gifts and visits of mock ceremony to make fools of those who had forgotten the change in dates.

The Romans had a holiday similar in character to this, although not coming at the same time of year, the saturnalia, and in Hindustan the feast of the Huli, on March 31, has for its chief diversion the sending of people on fruitless errands.

In Scotland they have a trick for April fools' day which never grows stale. If a fellow can be found simple enough to undertake it, he is given a note to carry to a certain person. He reads it and says it is not for him, but that he is to go to—naming another man—and from there he is sent to another and so on until the bearer grows tired or sees a light. The note contains the lines:

This is the first of April;  
Hunt the gowk another mile.

### Egg Superstitions.

There are many superstitions about the egg. In Scotland and Ireland children are taught by their nurses to crush the shell after eating an egg or to push the spoon through the bottom in the form of a cross, showing a lingering relic of the once general superstitious belief that witches lived in eggshells and made boats of them, casting spells upon the household.

In Italy it was believed that an egg laid by a white hen in a new nest on Easter day would cure pains in the head or stomach; that broken in a vineyard it would prevent its suffering from hail or similarly would save a field from frost, and its possession gave one the power to see witches. It was also believed that an egg laid on Good Friday, thrown on the fire, would extinguish it, while the devil would be killed if shot with an egg laid on Christmas.—Self Culture Magazine.

### Deweys Back in Washington.

WASHINGTON, May 17.—Admiral and Mrs. Dewey returned to Washington from their western trip. The depot was deserted when the Dewey special pulled in during the hottest hour of the day. A carriage was waiting, and the admiral and Mrs. Dewey, after making some visits in the city, drove at once to Bouvoir, their summer home. All the members of the party were sunburned, the admiral being almost as brown as on his return from Manila. He seemed livelier and more energetic than usual, evidently being much pleased with his trip. His only expression of opinion on the subject was that it had been "perfectly charming" and "very enjoyable."

## SALINEVILLE IS IT WET OR DRY?

Our Neighboring Town Has a  
Chance to Wipe Out the  
Saloons.

### ELECTION SATURDAY, MAY 19

What Will the Record Be? Answer  
Must Be Made on Judgment  
Day.

### SALOONISTS HARD AT WORK.

The ministers of Salineville, in company with the true hearted women of the Women's Christian Temperance union, backed by every man and woman of that village who desires the downfall of the accursed saloon, will make battle royal, in the name of God and our common humanity, against the liquor demon on Saturday, May 19, the town council having given the voters of the borough the right to decide whether the saloon shall go or stay—whether temperance and good order shall prevail, or drunkenness, disorder and crime hold sway.

There are eight saloons now in full swing in Salineville. Eight hell holes, where young men are graduated for hades. Eight dens of vice, out of which no good, or redeeming, or right, or honorable, or truthful, or just, or merciful, or righteous feature can possibly be evolved or produced. No sane man, no man of good, hard, common sense, will dare assert that any righteous or God-saving, or man saving, or woman saving, or child saving influence was ever produced within the portals of a saloon.

The saloon is a curse to the workman and to his wife and children. A curse to the church of God. A curse to the business interests of any city, town or village. A curse to the rich and to the poor. A curse to young manhood. A curse to young womanhood. An awful curse to fathers and mothers, whose children are dragged down to disgrace, death and to a drunkard's grave, with the gates of heaven barred forever against them, and the gates of hell wide ajar, yawning for their reception.

The citizens of Salineville will voluntarily decide, on Saturday, May 19, whether or not the infamous saloon shall remain in their midst, and the verdict will be recorded in the court of the Great Judge of good and evil, and this record will confront the voters on the day of final judgment.

The Liquor League and its infamous agents are hard at work in Salineville, and have been for many days and nights. Their chief argument, if argument it can be called, is that "the business interests of Salineville will suffer if you bar out the saloon."

This chestnut of the devil is hoary with age, and has so often been proved to be an absolute misstatement, that the man or woman of average intelligence laughs it to scorn. Numerous counties, townships, cities, villages and towns in the United States have barred the accursed saloon out, and the universal verdict is that the result of the process has been increased prosperity, good order and happiness. Two prominent commercial travelers, men who travel all over the states, and who do a big business among the merchants and business men of Ohio, said to the writer:

"Commercial travelers of good repute and straight business character-

istics now give the saloon the go by, and in many, very many cases, have become total abstainers. And the leading wholesale houses of the nation, in every branch of business but that of breweries and distilleries, are clamoring for salesman who do not look upon the wine when it is red or giveth forth its color. Our verdict, from a business standpoint, is that the saloon is a curse to any community, while a drunken and tippling commercial traveler is a condemned nuisance, and does not long hold any position of trust or emolument."

In the light of such evidence, and in the interest of common good, law, order, decency and self protection, Salineville should close up the hell holes in her midst at the election to be held on Saturday, May 19.

### THOMAS H. ARBUCKLE

#### ELECTED STATE TREASURER OF THE O. U. A. M.

While Thomas Pickall Was Elected Inside Protector—A. H. Clark on Committee on Appeals.

The persons from this city who have been attending the state council of the O. U. A. M. at Bellaire, during the past week, returned to their homes yesterday afternoon. As usual members of the local order have been elected to state offices. Thomas H. Arbuckle was again elected state treasurer, while Thomas Pickall was elected Inside Protector. The various committees have not yet finished their work, and it is probable that some members of the local council will be appointed. It is said A. H. Clark will be retained as a member of the appeals committee.

### HE HAS GONE.

Edward Cunningham Was Given a  
Short Time to Shake the Dust of  
the City From His Shoes.

Edward Cunningham has left the city, or at least he is supposed to have left, and if he troubles the police department again he will get in trouble clear over his head. Mayor Davidson decided yesterday that Cunningham was not worth what it would cost to send him to the works and instead gave him a very short time to get out of the city.

### LOST CHILD.

The Little Child of Mr. and Mrs. U. S. Cunningham Wandered Away  
From Home.

Last evening the two-year and a half old child of U. S. Cunningham wandered away from its home at the corner of Seventh and Jackson streets and caused the family some alarm. It wandered into the store of Chal Peterson and was taken to city hall by Miss Dickey. The father arrived about 9 o'clock and took the child home.

The corner stone of the new King's Daughters hospital at Steubenville, will be laid tomorrow afternoon. Hon. John M. Cook will deliver the address.

## DR. FULMER OF BALTIMORE

Called to the Pastorate of the First  
Presbyterian Church Last  
Night.

### FOUR BALLOTS WERE TAKEN

Dr. Robinson, of Moncton, Dr.  
Linn, of Pittsburg and Dr.  
Work, of Cincinnati.

### WERE THE NEXT IN FAVOR.

The congregation of the First Presbyterian church, at the congregational meeting held last night, extended a call to Dr. L. S. Fulmer, pastor of the Lafayette Square church, Baltimore.

Rev. Lavery, pastor of the First church of Wellsville, acted as moderator and the congregation decided to permit all members to cast their ballots for their preference on the first ballot. Then the four ministers receiving the highest number of votes would be voted on, and the one receiving the lowest number on this ballot would be dropped, leaving three to be voted for on the third ballot. The same action would be taken after this ballot, leaving only two to be voted for, and the minister receiving the highest number of votes on this ballot would be the choice of the congregation and his election if possible would be made unanimous.

The tellers were appointed and the ballots resulted as follows:

First ballot—Dr. Fulmer, Baltimore, 75; Dr. Robinson, Moncton, 40; Dr. Linn, Pittsburg, 36; Dr. Work, Cincinnati, 34.

Second ballot—Dr. Fulmer, 102; Dr. Robinson, 38; Dr. Linn, 47.

Third ballot—Dr. Fulmer, 117; Dr. Robinson, 34; Dr. Linn, 63.

Fourth ballot—Dr. Fulmer, 138; Dr. Linn, 73.

A motion was made that a call be made to Dr. Fulmer. The call was read to the congregation and the elders and trustees were authorized to sign it for the congregation.

Upon motion of Dr. Bailey the pastor's salary was fixed at \$2,500 per annum, payable quarterly.

The call was sent to Dr. Fulmer this morning and an answer is expected from him soon. Dr. Fulmer preached in the First church several months ago and was greeted by immense audiences both morning and evening. He pleased the congregation at both services and is known to be a splendid minister and pastor. He is comparatively a young man, but is recognized as one of the best ministers in the city of Baltimore.

### MALONE GOT OUT.

He Scraped Up Enough Money to Pay  
His Fine and Was Released  
Yesterday.

Michael Malone once more succeeded in getting out of jail and donated \$9.60 yesterday afternoon to the police department of the city. He managed to remain out of jail last night, and it is expected that he has now quit drinking and has gone to work.

#### New Swindle.

Here's a new swindle. A pretended census enumerator has been working the farmers near Minerva, by asking

them for statistics about their families and then having them sign the report. Later a bill comes for a large order of useless books for which the farmer finds he has signed. The deception is causing much trouble, but the perpetrators have not been found.

### LIST OF PRIZES.

Knights of Pythias Are Preparing for  
the Celebration on the  
Fourth.

At a meeting last night the Knights of Pythias decided on the prizes to be given for the different drills to be in the parade here on July 4. Formal invitations were sent out today to all companies within a radius of about 100 miles, many of which have already signified their intention to be present. The local company will be out for drill Friday evening.

Following is the list of prizes which will be given: First prize for competitive drill, \$200; second, \$100; third, \$50. The prize for the largest percentage of any company in parade is \$100.

### BASEBALL.

The Line Up for the K., T. & K.—  
Burford Game Tomorrow  
Afternoon.

The line up for the game tomorrow is as follows:

Burford-McNicol — D. Emmerling, catcher; Wines, pitcher; Daugherty, short; Lounds, first; G. Kennedy, second; Hester, third; Callahan, left; Schell, middle; Price or Emmerling, right; sub., Stillwell.

K., T. & K.—Millward, catcher; McShane, pitcher; T. Kennedy, short; Winters, first; Davis, second; Reark, third; Trainer, left; Chadwick, middle; Huff, right.

### WHAT IT COST.

Freeman French Will Pay the City  
\$43.50 Before He Succeeds in  
Getting Released.

Freeman French, who was arrested yesterday for cruelty to animals and malicious destruction of property, had a hearing before the mayor yesterday afternoon. He agreed to pay for the damage he had done to the horse, buggy and harness, and with his fine attached it will cost him \$43.30 before he is released from the city jail. It is expected he will have the cash before the day is ended.

### A SERIOUS ACCIDENT.

The Four-Year-Old Son of William  
Cochran Broke His  
Arm.

The 4-year-old son of William H. Cochran, of Short street, broke both bones of his fore arm Tuesday evening. He fell while trying to walk around the outside of the railing on the porch. The break being close to the wrist makes it a rather serious one.

#### Burglarized a School.

The Fourth street school building at Salem was burglarized a few nights ago, and both the superintendent and the mayor of the city claim to know the party who is guilty. It is said that a sum of money in the superintendent's office was taken. Several other articles are reported missing, and arrests will probably follow.

#### Sewer Commissioners.

The sewer commissioners will hold a meeting soon in order to take action on bills and also approve the work on sanitary sewer No. 2 as far as it has gone.

Doing a Tour of the City Making  
Misrepresentation of the  
Law.

### BOARD OF HEALTH ALERT

Will See That Interests of the  
Public Are Protected—Sanitary  
Reduction Rates

### SOON TO GO INTO EFFECT.

At present there seems to be too many garbage haulers for the size of the city and an effort is being made to locate some people who are doing a land office business hauling garbage.

Recently it has been discovered that some person has been calling at houses and stating to the people that they must have the garbage hauled away. In one place the price charged was 20 cents a load and in another place the people were informed that it would cost them 10 cents a load and the garbage must be hauled twice a week.

The contract given the Sanitary Reduction company says they must haul the garbage away in air-tight wagons and take it away twice a week for eight cents, provided the residence is not more than six rooms.

The board of health at their meeting will probably investigate the matter and find out when the furnace people will put on air-tight wagons. If the parties who are making the misrepresentations are apprehended it will probably go hard with them.

### THROWN FROM HIS WHEEL.

Harry Halstead's Bicycle Struck a  
Dead Tree Limb on  
Fifth Street.

The wheel of Harry Halstead's bicycle while he was riding on Fifth street last night about 9 o'clock struck the dead limb of a tree which was lying in the street. He was thrown from the wheel, striking the limb and making an ugly gash wound above the knee. He was carried to the office of Dr. Toot, who dressed the injury. It is not thought the wound will be a serious one.

#### Mrs. Orr Number Four.

James Orr, a 76-year-old citizen of Millport, who has been married no less than three times, is in Detroit now contracting for his fourth bride. He secured her address through a matrimonial bureau, and had sent her over \$100 before he went for her. Mr. and Mrs. Orr are expected home this week.

#### Fined for Fast Driving.

Thomas Mitchison was before Squire McLane yesterday on a charge of fast driving on the bridge, complaint being made by Tollkeeper Todd. He pleaded guilty to the charge and was fined \$1 and costs, which he arranged to pay and was released. The offense was committed last Sunday.

#### Succeeds Himself.

The statement that A. G. McKenzie, of Wellsville, had been succeeded as deputy oil inspector by Frank Lewis is denied. Mr. McKenzie has filled the office for four years, and will continue to do so for another term. He filed his \$5,000 bond with County Clerk McNutt this week.

At present there seems to be too many garbage haulers for the size of the city and an effort is being made to locate some people who are doing a land office business hauling garbage.

Recently it has been discovered that some person has been calling at houses and stating to the people that they must have the garbage hauled away. In one place the price charged was 20 cents a load and in another place the people were informed that it would cost them 10 cents a load and the garbage must be hauled twice a week.

The contract given the Sanitary Reduction company says they must haul the garbage away in air-tight wagons and take it away twice a week for eight cents, provided the residence is not more than six rooms.

The board of health at their meeting will probably investigate the matter and find out when the furnace people will put on air-tight wagons. If the parties who are making the misrepresentations are apprehended it will probably go hard with them.

### THROWN FROM HIS WHEEL.

Harry Halstead's Bicycle Struck a  
Dead Tree Limb on  
Fifth Street.

The wheel of Harry Halstead's bicycle while he was riding on Fifth street last night about 9 o'clock struck the dead limb of a tree which was lying in the street. He was thrown from the wheel, striking the limb and making an ugly gash wound above the knee. He was carried to the office of Dr. Toot, who dressed the injury. It is not thought the wound will be a serious one.

#### Mrs. Orr Number Four.

James Orr, a 76-year-old citizen of Millport, who has been married no less than three times, is in Detroit now contracting for his fourth bride. He secured her address through a matrimonial bureau, and had sent her over \$100 before he went for her. Mr. and Mrs. Orr are expected home this week.

#### Fined for Fast Driving.

Thomas Mitchison was before Squire McLane yesterday on a charge of fast driving on the bridge, complaint being made by Tollkeeper Todd. He pleaded guilty to the charge and was fined \$1 and costs, which he arranged to pay and was released. The offense was committed last Sunday.

#### Succeeds Himself.

The statement that A. G. McKenzie, of Wellsville, had been succeeded as deputy oil inspector by Frank Lewis is denied. Mr. McKenzie has filled the office for four years, and will continue to do so for another term. He filed his \$5,000 bond with County Clerk McNutt this week.

## TRADES AND LABOR COUNCIL MEETING

New Committees Appointed For the Ensuing Year at Last Night's Session.

### NEW DELEGATES RECEIVED

**Picnic Committee Named—Resolutions Regarding Municipal Matters Read.**

### THE WOMEN'S LABEL LEAGUE.

Trades and Labor council met last night and transacted business of importance.

The following new delegates were received and obligated: Frank Ruppel, local union No. 16, saggermakers; J. C. Hart, local union No. 71, coopers; Ed. Talbot, slipmakers; Joseph Elwell, No. 42; Brother Malon, No. 24; David Watson.

A communication was received from the Women's Union Label league in regard to forming a label league in this city. The communication was read and referred to the secretary, who will notify the label league of the action taken by the committee.

The president then announced the list of committees which consist of the following: Grievance, organization, legislative and credential. It was deemed best to not give the names of the persons on the committee this year.

It was moved that a picnic committee of five be appointed to make arrangements for the labor day celebration. The following committee was then announced by the president: John Powell, John Bolton, James Heckathorn, Leroy Orr, Doc Thomas. The following communication was read and referred to the legislative committee:

Whereas, By reason of our city council granting a franchise to a competing telephone company and the establishment of its system, our citizens have lower rates and better service; and,

Whereas, Our citizens have had a like opportunity to be benefited in the matter of electric lighting, and our city council has refused the necessary franchise; be it

Resolved, That it is the sense of this body that the city council should grant the franchise, so that our citizens may receive the benefit of competition.

A resolution commending the action of the library commission in selecting the plans of A. W. Scott for the new library was passed, and a vote of thanks tendered the commission. The council then adjourned.

### Master Plumbers Organize.

Representatives of the master plumbers of East Liverpool and Wellsville met at Wellsville city hall and organized a branch of the state association. Mayor Dennis, of Wellsville, was elected president; John Nagle, of East Liverpool, vice president; William McCormick, of Wellsville, secretary, and Frank Milligan, of East Liverpool, financial secretary and treasurer. The object of the association is to promote the welfare of the plumbing trade.

### Notice to Contractors.

Bids will be received for the building of a brick church at Irondale for the Disciples of Christ, up to 12 m., Saturday, May 5, 1900. The trustees reserve the right to reject any or all bids. Plans can be seen at the Courier office, Irondale, Ohio.

## THE STORY OF THE POTTER'S ART

### Side Lights on the Early Production of Pottery and Porcelain.

One of the earliest arts attained by mankind, and of which we have any knowledge, was that of pottery making. The Egyptians themselves had, in the time of Herodotus, who lived and wrote nearly five hundred years before Christ, so lost the knowledge of when they first became acquainted with this art, that they, as is usual with a semi-civilized people, ascribed its origin to the teaching of some divinity. The frequent use in the Old Testament of the terms taken from this industry, and the numerous cases in which figures are drawn from articles of pottery, show, if such a proof were needed, that the manufacture was well established among the Jews, and the domestic articles of pottery were in very common use.

In the East, utensils are often made of pottery of a size so large that we would hardly think them constructed solely of clay. In the story of "Forty Thieves" in the "Arabian Nights," the robbers conceal themselves in jars. The jars first in use in the East for storing oil and wine frequently reach the height of a man, being proportionally broad, and afford a most handy and comfortable place for concealment. A manufacturer in this country recently produced two vases a little over four and a half feet high, but they were not wide in proportion and could not be compared with the production of the Orientals.

While the knowledge of pottery was so widely diffused among the nations of antiquity, yet the Chinese and Japanese are the only people who seem to have had any well-grounded knowl-

edge, long ago, of the art of making porcelain, and at a very early period both these nations carried this art to a degree of perfection never since equaled by any other country.

Among the ancients, the most celebrated manufactories of pottery were those of the Greeks, and the Etruscans, who were settled in Italy before the Romans dominated that country, and who derived their methods and style of decoration from the Greeks. It was the custom of the nations of antiquity to bury large quantities of pottery and other art ware in the tombs of the dead, and even today, in the excavations continually going on, are found excellent specimens of pottery in a fine state of preservation. The decorations on this long-buried pottery have greatly aided scientists and historians in determining the customs and manners of the extinct races who produced them.

In China, the manufacture of porcelain first supplied the demands of Europe, so that the name "China" has come into ordinary use. The Chinese, themselves, ascribe the invention of pottery to the Emperor Hoangsti in 2700 B. C., and that of porcelain to the year 185 B. C. Porcelain, in China, is used not only for domestic, but also for architectural purposes.

Among the ancient inhabitants of Peru and some other countries of South America, pottery had, at the advent of the Spaniards, attained quite a development. In their almost total destruction of the civilization which they found flourishing in these countries, the Spaniards did not spare even the evidences of this art.

### WOMEN FOUGHT.

**Mrs. Laughlin Says Mrs. McCord Beat Her With a Club and Broke Her Arm.**

Lisbon, May 17.—(Special.)—Yesterday Mrs. Euphemia McCord, of Wayne township, was arrested on a charge of assault and battery preferred by Mrs. Margaret Laughlin.

Mrs. Laughlin alleges that while passing Mrs. McCord's home Tuesday the latter attacked her with a club and gave her a severe beating, breaking one of the bones in her left arm and severely bruising her about the head and body. Mrs. McCord gave bond for a hearing next Wednesday before Squire Riddle.

### AN EFFORT MADE

**To Send a Middleton Township Youth to the Reform School.**

George Mercer, a ten-year-old lad of Middleton township, was brought into probate court and an effort made to send him to the Boys' Industrial school at Lancaster. Judge Boone concluded, however, that it was best to give the boy another chance to behave himself, and after giving him a lecture sent him back home on trial.

### Railroad Valued.

County Auditor Adams has returned from Cleveland where the auditors of the counties through which the Cleveland and Pittsburg railroad runs, met to fix the appraisement of the road for the taxation for the coming year. The main line was assessed at \$17,500 per mile; the sidings at \$3,000 per mile; rolling stock at \$6,000 per mile and credits and equipment at \$250 per mile. This is about \$200 higher than last year.

### Dropped Dead.

Lisbon, May 17.—(Special.)—Andrew Armstrong, aged 82 years,

dropped dead yesterday at his home in Elk Run township. He was born and reared in that township. From 1866 until 1872 he served as county commissioner. His wife, Mrs. Elizabeth Armstrong, is at the point of death with pneumonia.

### AGAINST PANAMA CANAL.

**Report Made by the Senate Committee in Favor of the Nicaragua Route.**

WASHINGTON, May 17.—The senate committee on interoceanic canals, through its chairman, Senator Morgan, presented its written report upon the Nicaraguan canal bill.

The committee takes strong position against the proposition to build the canal via the Panama route, paying for the work already done by the French. The declaration is made that the Panama company is practically without assets except those included in the Panama railroad.

"They say," says the report, "they have assets that a committee of experts has valued \$90,000,000. They make no offer or suggestion as to what they would take for it. The lowest sum at which they estimate the cost of completing their canal is \$95,000,000, so that in entering that combine we would go in on the basis of \$185,000,000 for the completed canal on the plan of three levels, if that plan is adopted, against \$138,000,000, which is the highest estimate any engineer has placed on the Nicaragua canal. The difference is \$47,000,000 in favor of Nicaragua."

The committee takes position against holding the pending bill until the Walker commission can report.

On the general question of the construction of a canal the committee takes the position that whatever canal is constructed its ownership must be American, and that delay may be fatal to the success of the enterprise.

### Lisbon's New Coal Fields.

Lisbon, May 17.—(Special.)—Work is progressing rapidly at the new coal fields just west of this city, and it will be but a short time until they will be in operation. The section hands of the Erie railroad began this morning to lay the switches and the carpenters are also at work on the wood work.

### HOPING FOR MAFEKING.

**Londoners Believe the Place Has Been Relieved—Roberts Rests, Buller Advances.**

LONDON, May 17.—The British public is keenly expectant of the announcement that Mafeking has been relieved. In army circles the opinion seems to prevail that this has already been accomplished.

Douglas Story, The Daily Mail's correspondent at Pretoria, wires:

"The Boer government is holding back some big news. Feverish activity prevails here. President Kruger is working day and night. The latest Boer bulletin is that the Boer relief column has been defeated with heavy losses."

Lord Roberts remains passive at Kroonstadt. His cavalry is stretching like a semi-circular screen many miles in length with overlapping flanks. The railway will probably be completed today.

General Buller is moving toward New Castle. He appears to be using 25,000 men against 5,000 or 6,000. His operations will almost certainly result in his forcing his way into the Transvaal, possibly in time to co-operate with Lord Roberts' advance, although Gen. Buller is now about 252 miles from Johannesburg, or about 25 days' march.

### BOER ENVOYS MAY

#### STAY IN AMERICA.

**An English Correspondent Heard Them Talking in Dutch—Said Their Cause Was Hopeless.**

LONDON, May 17.—The Daily Express published this morning a three column New York special, signed by Patrick O'Connor, who crossed the Atlantic with the Boer delegates on the Maasdam, under pretense of being an Irish-American and a Boer sympathizer. Mr. O'Connor understands the Boer language, and he claims to have overheard much private conversation, in the course of which Mr. Wolmarans is reported as saying to Mr. Fischer:

"I think we should be careful of what we say to this man, as he should be a spy. Are you sure he is an American?" Mr. Fischer: "There is no doubt of it. I can tell by his action."

Mr. Wessels: "It would never do, of course, for the British to know we are really in the last extremity or for him to know we are thinking of staying in America."

Then resuming the English language, Mr. Fischer began by blaming Cecil Rhodes for bringing on the war.

Mr. Wolmarans said to Mr. Fischer, in Dutch: "Do you think we had better tell him how Kruger broke off the conferences?"

Mr. Fischer: "No."

Mr. Wolmarans, in Dutch: "Our position just now is precisely that of Jameson at the time of the raid. He expected Johannesburg to rise to his assistance. We expected the same of Cape Colony and Natal. We are bitterly disappointed. Tell him how Schreiner deceived us."

Mr. Fischer: "He knows well, as well as we do, that Schreiner is loyal to Great Britain."

Resuming English, Mr. Fischer said: "We are going to win the war if it takes years."

Addressing Mr. Wessels and using Dutch, Mr. Fischer then said: "We had better not say too much. We are getting badly beaten now. We are going to America in the hope of getting the friendly help of the United States in the cause of peace. That is what we will say to the public. As a matter of fact, we have no hope whatever. We have no cut and dried program."

### TO ENTERTAIN THE BOERS.

**Sulzer Announced the Program Arranged For Visit to Washington.**

WASHINGTON, May 17.—Representative Sulzer, of New York, announced the following program for the Boer delegates:

On Thursday night a committee, consisting of three United States senators

three representatives and a number of prominent citizens, will go to New York to escort the delegates here. They will leave New York Friday morning and will be met at the depot here by a committee of 200 and taken to the Arlington hotel, where quarters have been engaged by the reception committee. On Friday night an informal reception will be held at the hotel, and on Saturday morning the Boer delegates will call to see the president. On Sunday night there will be a meeting at the Grand opera house, when the three delegates will speak, and there will be addresses also by senators and representatives.

### FOR KILLING A MISSIONARY.

**Chinamen Condemned, but Said to Have Bought Substitutes.**

VANCOUVER, B. C., May 17.—The Emperor of China brings information that punishment has been meted out to the murderers of Missionary Brooks. Fifteen men were tried for the crime before the provincial judge at Chinan Fu, and C. W. Campbell, British consul. It was developed at the trial that only three were guilty of the actual killing and one of these dealt the final blow. This one, being the most culpable in the Chinese criminal code, was beheaded in the presence of the British consul. Another, who was only a shade lighter in guilt, was sentenced to strangulation at the autumn assizes. A third was sentenced to life imprisonment and four others to ten years' imprisonment.

The North China Daily News has a startling story to the effect that the condemned men were allowed to purchase substitutes.

### IF WOMEN ONLY KNEW.

**What a Heap of Happiness It Would Bring to East Liverpool Homes**

Hard to do housework with an aching back.

Hours of misery at leisure or at work.

If women only knew the cause; Backache pains come from sick kidneys.

Doan's Kidney Pills will cure it.

East Liverpool people endorse this.

Mrs. Mary Hewitt, of St. George st., says: "I read in the Pittsburg Press an account of some one who had been cured of kidney complaint in that city by using Doan's Kidney Pills. The fact of such an account being published of one living in almost the same place had a tendency to convince me that there must be some truth in it, and I determined to try them myself. Some years before this I had a severe attack of rheumatism; for three months I lay helpless, and after that I had trouble with my kidneys. For a year I suffered severely. My back was so bad that it felt as if I had a boil where the kidneys are. I could not bend, lean back against a chair or reach up. I could not lie on my back, and about every move I made caused pain. I had taken numerous remedies, but none brought the desired relief. Well, Doan's Kidney Pills, procured at the W. & W. pharmacy, did what no other remedy was able to do. I took them regularly for a short time, and found them all the Pittsburg paper stated them to be. I can heartily recommend them. After using them I was rid of backache and other symptoms of kidney trouble."

Sold for 50 cents per box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

It was developed at the trial that only three were guilty of the actual killing and one of these dealt the final blow. This one, being the most culpable in the Chinese criminal code, was beheaded in the presence of the British consul. Another, who was only a shade lighter in guilt, was sentenced to strangulation at the autumn assizes. A third was sentenced to life imprisonment and four others to ten years' imprisonment.

The North China Daily News has a startling story to the effect that the condemned men were allowed to purchase substitutes.

### IF WOMEN ONLY KNEW.

What a Heap of Happiness It Would Bring to East Liverpool Homes

Hard to do housework with an aching back.

Hours of misery at leisure or at work.

If women only knew the cause;

Backache pains come from sick kidneys.

Doan's Kidney Pills will cure it.

East Liverpool people endorse this.

Mrs. Mary Hewitt, of St. George st.

says: "I read in the Pittsburg Press

an account of some one who had been

cured of kidney complaint in that city

by using Doan's Kidney Pills. The

fact of such an account being published

of one living in almost the

same place had a tendency to convince

me that there must be some

truth in it, and I determined to try

them myself. Some years before this

I had a severe attack of rheumatism;

for three months I lay helpless, and

after that I had trouble with my kidneys.

For a year I suffered severely.

My back was so bad that it felt as

if I had a boil where the kidneys are.

I could not bend, lean back against

a chair or reach up. I could

not lie on my back, and about

every move I made caused pain. I

had taken numerous remedies, but

none brought the desired relief. Well,

Doan's Kidney Pills, procured at the

W. & W. pharmacy, did what no other

remedy was able to do. I took them

regularly for a short time, and found

them all the Pittsburg paper stated

them to be. I can heartily recommend

them. After using them I was rid of

backache and other symptoms of kidney

trouble."

Sold for 50 cents per box by all

dealers. Foster-Milburn Co., Buffalo,

N. Y., sole agents for the United States.

Remember the name—Doan's—and

take no other.

## OPPOSITION.

### Garbage Haulers of the City are Talking of Starting a Plant of Their Own.

The garbage haulers of the city are talking of starting in opposition to the garbage furnace and leasing a piece of land outside the city limits and disposing of the garbage at reduced rates. They claim that they will be driven clear out of the business by the fact that they have to pay 75 cents for every load they haul to the furnace. Some of the restaurant keepers who have been ordered to have their garbage taken away also object because they say they cannot get any person to haul it unless they agree to put up the 75 cents it costs to burn it. They think the furnace should not be started until the company are ready with their wagons to collect the garbage.

### TO THE PUBLIC.

Joseph Crites has severed his connection with the News Review, and is no longer the circulation agent of this paper. He has no authority to collect money due this paper or to transact business for this paper. His resignation dates from April 28, 1900.

### Changes at Chester Mill.

The Chester rolling mill, which has been acquired by the American Sheet Steel company, will be in charge of P. F. Smith, who has charge of the Wellsville mill. Mr. Smith is one of the vice presidents of the American Sheet Steel company.

It is stated that Clarence B. Maylone, president of the council of Wellsville, is to be transferred to the office of the mill at Chester. Mr. Maylone has been with the Wellsville Plate and Sheet Iron company for many years. He began his duties yesterday at the Chester mill, but for the present he is working for the Chester Rolling Mill company. It is stated that as soon as the transfer of the mill to the trust is effected Mr. Maylone will be Mr. Smith's representative in charge of the Chester plant.

### Fire Near Riverview.

The dwelling of Lawrence Glass, about a mile from Fairview on the Frankfort road, burned to the ground Tuesday. Almost the entire contents of the house were destroyed. Mr. Glass being away from home. The fire had gained great headway before the neighbors arrived. The barn caught fire several times, but each time the blaze was put out. The origin of the fire is unknown. The loss is estimated at \$2,000. Mr. Glass carried \$700 insurance on the house and \$200 on the contents.

### First Water Pipe Arrives.

The first car load of pipe to be used on the Southside water line arrived yesterday. The work of digging the trenches and laying the pipes will not be commenced before June 1, as it will be that date before material enough will be on hand to keep the work going as rapidly as desired.

Dallas Ralston, of Fairview, will move to Joseph Allison's farm near Chester.

### Among the Sick.

Mrs. John Martin received a telephone message Tuesday evening that her daughter, Blanche Gamble, was dangerously ill at Hammondsville. Mrs. Martin went at once and brought her daughter home on the noon train yesterday. The trip weakened the sick girl considerably, but she is probably out of danger.

### Moved Their Saw Mill.

Martin & Cameron have moved their saw mill from the farm of J. H. Campbell, near Fairview, to Hiram Allison's. They have the contract for sawing the lumber to be used on the Southside water works.

### More Italian Workmen.

A gang of about a dozen Italian laborers came to the Southside Tuesday evening and began work on the sewer yesterday.

Candidates Hewitt and McDonald were shaking hands with Chester voters yesterday.

## TO REPAY OHIO.

### Congressman R. W. Taylor Introduces a Resolution to Refund War Loan.

Representative R. W. Taylor introduced a joint resolution providing for the repayment to Ohio of \$425,000, being the interest and amount expended in selling bonds for the purpose of raising money to equip Ohio troops and send them into the field during the civil war. Representative Taylor's father, Robert W. Taylor, Sr., was auditor of the state of Ohio for a year under the Governor Dennison and subsequently under the Governor Todd administration, during which time the money for which the state wishes to be reimbursed, was expended.

The resolution introduced by Mr. Taylor "authorizes and directs the secretary of the treasury" to make the payment. In other words it is mandatory, and if it should be passed, would leave the secretary no discretion in the matter of returning the money to Ohio.

The resolution has been recommended for adoption by the house committee on claims.

## MORLEY TALKS.

### Repudiates Statement That He Has Power to Act as Building Inspector.

Fire Chief Morley this morning said: "The talk of my acting as building and fire inspector is all bosh. There is no ordinance providing for such work on my part. About 12 years ago Colonel Watson introduced an ordinance to that effect, which was passed. Its life was short, for it was killed within two weeks to suit some favored parties. Since that time nothing has been done toward passing another ordinance covering the same ground. Of course if I learn that a building is in danger I have the authority to have matters changed. At that place my authority ends."

The baby's coming is often looked forward to as a time of dread and danger. Many women are physically unfit to become mothers. They are sick and weak

In a womanly way and may well look with fear toward the time of maternity. Intelligent preparation for this time is most essential. An athlete "trains" for months before his trial. Most women do not "train" at all and yet their trial is to be fifty times as severe as the athlete's.

During the period of gestation every woman should use every means to strengthen the organs that are to be tried. They should be kept in perfect health. The faintest symptom of disorder or disease should be promptly eliminated.

Dr. Pierce's Favorite Prescription is designed to do this very thing—has been doing it for over thirty years. It is the one sure medicine for all female complaints. It is the only preparation of its kind that is the invention of a regularly graduated physician—a skilled and experienced specialist in the cure of diseases of women.

Mrs. Emerson Allen, of Dorset, Ontario, Ont., writes: "I was in very poor health for a long time, dating from the birth of my little girl. I tried different doctors and different medicines. I took four bottles of 'Favorite Prescription' and seem to be perfectly well again."

 Valuation Put on Ft. Wayne Tracks Through Columbiana County.  
 Lisbon, May 17.—(Special.)—County Auditor Adams returned last evening from a meeting of county auditors held in Canton for the purpose of putting a valuation on the Ft. Wayne railroad. This road passes through 23 3/4 miles of this county and a valuation of \$28,000 per mile was made on the main tracks. It is the highest valuation placed on any railroad in the state. It is \$9,000 higher per mile than the Lake Shore road. The valuation on second track was \$7,250 per mile, sidings \$3,500 per mile, rolling stock \$7,500 per mile, credits \$375 per mile, station houses \$32,500.

**NO VACATION.**  
 Attorneys May Decide to Keep Their Offices Open All the Year.  
 It is very likely that the attorneys of the city will take no vacation as they did last year. This is caused, it is said, from the fact that some attorneys last year transacted business during the last vacation time, while other attorneys were standing by the agreement made to close their offices and were off on their vacations. The attorneys do not favor the idea of some closing their offices, while others remain at home to do work.

**A Fish Story.**  
 A party of eight wen from East Liverpool yesterday and spent the day fishing for bass in the waters of Beaver creek near Fredericktown. A great many fish of various kinds were caught by members of the party, but it was bass they were after and bass they got to the number of 32. The party consisted of C. T. Larkins and wife, Dr. E. L.  The annual convention of the diocese of Ohio of the Protestant Episcopal church, which has been in session in Cleveland for the past two days was brought to a close yesterday afternoon. Rev. Edwin Weary and the delegates from this city who have been attending the various sessions, returned to the city on the late train last evening, and they say the convention was the most successful one ever held. Bishop Leonard, during his address in the convention Tuesday morning paid a glowing tribute to the congregation of St. Stephen's church and the rector for the work they accomplished during the past year. The members of the regular standing committees, who have served for many years, were elected for another year during the session held yesterday morning. During this session Rev. A. L. Frazer, of Youngstown, chairman of the diocesan committee on institutions, reported that he and his committee had thoroughly inspected the institutions of learning at Gambier, and found them in fine condition. It was resolved to constitute the executive committee of the Sunday school institute one of the permanent committees of the diocese. The date for the laying of the corner stone of the new church being erected St. Stephen's congregation has been deferred one week, the date now set being June 10 instead of June 3. This was done to favor Bishop Leonard. Rev. Weary since the date has been changed has received assurances from the following members of the clergy that they will be here to assist in the services. They are Dr. Lloyd, of Cleveland, Rev. E. V. Shayler, of Sandusky, Dean A. L. Frazer Jr., of Youngstown, and Dr. Hinkle, of Steubenville.

# INJUNCTION CAME TOO LATE

Two Temporary Restraining Orders Issued by Judge Boone Against Street Railway

## TRACKS ON SHERIDAN AVENUE

But the Company Had Tracks Down Before the Court Had Acted.

HEARING TO BE ON JUNE 16.

Lisbon, May 17.—(Special.)—Two temporary injunctions were issued yesterday afternoon against the East Liverpool Street Railway company. The restraining orders were issued to prevent the laying of track on Sheridan avenue, East Liverpool, and were asked for by Thomas Starkey and Ellen M. O'Connor. The petitioners own property abutting on Sheridan avenue and they say that as that thoroughfare is only 30 feet wide if the company is allowed to lay and operate a street railway on that street traffic will be obstructed, their business will be interfered with and their property permanently injured. They also allege that defendant is proceeding illegally, in that it did not have the petition presented to city council, asking right of way signed by half the owners of property abutting on that street.

As Judge Hole is in Cleveland the restraining order had to be issued by Probate Judge Boone.

## TOO LATE.

Street Railway Company Had Tracks Down Before the Injunction Papers Were Served.

It is thought the street railway company anticipated the action of the parties who had the injunction issued, as they had a large force of men at work on the street all day yesterday and before the injunction papers could be served the tracks were down along Sheridan avenue. Mr. Healy, in speaking of the matter this morning, stated that the force quit work when the papers were served, but he had a smile on his face while he was making the statement. He also stated that the people had been clamoring for the company to go to work on the line, but now that they had started in earnest some people seemed to think they ought to quit at once. The injunction cases will be argued June 16.

## NO APPOINTMENT

Has Been Made to Fill Pulpit of Episcopal Church of Wellsville.

The committee on missions of the Protestant Episcopal church have not decided who they will place in charge of the Episcopal church at Wellsville to fill the vacancy caused by the resignation of Rev. Shey, who has had charge of the church for the past year. Some decision will be made in this matter within the next few weeks.

Will Start About August 1.

William L. Taylor said this morning in regard to the Taylor, Smith & Lee pottery on the Southside that the present indications are that the plant will be in operation the latter part of July or first of August.

Bitten by Snake.

Isaac Miller, a small boy, accompanied by a number of his companions, while playing this morning in the vicinity of the East End, were bitten by

a snake. Miller fainted, but help was procured and the proper antidotes administered.

## IN CARRIAGES.

County Commissioners and Councilmen Went Over the Street Improvements Today.

County Commissioners French, George and Bowman arrived in the city this morning for the purpose of viewing the location of the proposed Dry Run bridge and looking over the recent improvements made to the roads leading out of the city. Councilmen Peach, Marshall, Cripps, Nice and Arnold took a day off, secured the engineer and getting enough carriages to go round started to the East End with the county officials. They spent the morning viewing the proposed location for the new bridge and casting eagle glances at Pennsylvania avenue as they came back. They arrived home a few minutes before 1 o'clock covered with dust, but having the satisfaction of knowing that they had finished a portion of their work. This afternoon the same parties took a tour of Jethro street, Trentvale street, Calcutta road and Lisbon street, and the commissioners were shown the immense improvements finished and contemplated. The commissioners will arrive at their decision in regard to the bridge and roads when they return home and have a session.

## STEEL CEILINGS.

Being Placed in Auditorium of the M. P. Church—Work Will be Finished by June 1.

This afternoon workmen commenced placing the steel ceiling in the auditorium at the Methodist Protestant church. The contract will not be completed until June 1.

The official board of the church met early in the week to open bids for the repairing of the walls of the church, but the contract was not let. While the improvements are being made in the auditorium services will be held in the lecture room of the church. The cost of the improvements will amount to about \$750.

## MRS. MARY RUSSELL,

## GOING TO SIBERIA.

Tal McCain to Go There Soon to Work Drills for a Beaver Falls Firm.

Tal McCain, of Beaver Falls, who was once a resident of this city and well known here, will leave next Tuesday for New York, from which port he will sail for Siberia. He will be accompanied by another man from Beaver Falls.

When McCain lived here he was employed at the lower works of the Patterson Foundry and Machine company. When the strike of the machinists was started McCain went to Beaver Falls, where he has since been employed. Last week the Keystone Drilling company shipped two of their latest improved mining drills to Tomsk, Siberia for a mining company composed of Russian and English capitalists. There are no persons in Siberia who are familiar with the workings of these new drills, and McCain and another Beaver Falls man have been selected to go. The men will go first to England, and then to St. Petersburg and from there to Tomsk by rail. They will be gone six months, and will receive \$100 a month and all expenses. They may return here about December next.

Tomsk is a small city in the western part of Siberia, is situated on the Obi river and has a population of 1,300. It is a capital and a prominent commercial city. It is but a short distance north of the Trans-Siberian railroad.

## THE AIR WE BREATHE.

An Average of One Cubic Foot Consumed Every Two Minutes.

"Man wants but little here below" is an axiom which applies markedly to the quantity of air which is necessary to support life. It is estimated that when a man is at rest he consumes 500 cubic inches of air every minute, an allowance which at the first glance appears large.

It is, however, absurdly small when we consider that at this rate of consumption it would take a man 5 days and 9½ hours to exhaust the air in a small room 15 feet square and 10 feet high.

Any form of exertion, however, greatly increases the consumption of air. Thus if we saunter at two miles an hour we require just twice as much air as when sitting in our armchair, and at four miles an hour nothing less than 2,300 cubic inches will satisfy us.

Taking an average consumption throughout life of one cubic foot of air every two minutes, we reach some very interesting conclusions. Thus an hour's supply of air could be contained in a trunk 5 feet long, 3 feet wide and 2 feet deep.

In a day we should exhaust a small roomful, 10 feet long, 7 feet wide and 10 feet high.

For a year's supply we should require a reservoir or hall 100 feet square and a shade over 26 feet high, and the supply for a long life of 80 years would be contained in a large hall 1,000 feet long, 500 feet wide and 42 feet high.—Chicago Times-Herald.

## INJUNCTION

### CAME TOO LATE

Two Temporary Restraining Orders Issued by Judge Boone Against Street Railway

### TRACKS ON SHERIDAN AVENUE

But the Company Had Tracks Down Before the Court Had Acted.

HEARING TO BE ON JUNE 16.

Lisbon, May 17.—(Special).—Two temporary injunctions were issued yesterday afternoon against the East Liverpool Street Railway company. The restraining orders were issued to prevent the laying of track on Sheridan avenue, East Liverpool, and were asked for by Thomas Starkey and Ellen M. O'Connor. The petitioners own property abutting on Sheridan avenue and they say that as that thoroughfare is only 30 feet wide if the company is allowed to lay and operate a street railway on that street traffic will be obstructed, their business will be interfered with and their property permanently injured. They also allege that defendant is proceeding illegally, in that it did not have the petition presented to city council, asking right of way signed by half the owners of property abutting on that street.

As Judge Hole is in Cleveland the restraining order had to be issued by Probate Judge Boone.

### TOO LATE.

Street Railway Company Had Tracks Down Before the Injunction Papers Were Served.

It is thought the street railway company anticipated the action of the parties who had the injunction issued, as they had a large force of men at work on the street all day yesterday and before the injunction papers could be served the tracks were down along Sheridan avenue. Mr. Healy, in speaking of the matter this morning, stated that the force quit work when the papers were served, but he had a smile on his face while he was making the statement. He also stated that the people had been clamoring for the company to go to work on the line, but now that they had started in earnest some people seemed to think they ought to quit at once. The injunction cases will be argued June 16.

### NO APPOINTMENT

Has Been Made to Fill Pulpit of Episcopal Church of Wellsville.

The committee on missions of the Protestant Episcopal church have not decided who they will place in charge of the Episcopal church at Wellsville to fill the vacancy caused by the resignation of Rev. Shey, who has had charge of the church for the past year. Some decision will be made in this matter within the next few weeks.

Will Start About August 1.

William L. Taylor said this morning in regard to the Taylor, Smith & Lee pottery on the Southside that the present indications are that the plant will be in operation the latter part of July or first of August.

Bitten by Snake.

Isaac Miller, a small boy, accompanied by a number of his companions, while playing this morning in the vicinity of the East End, was bitten by

a snake. Miller fainted, but help was procured and the proper antidotes administered.

### IN CARRIAGES.

County Commissioners and Councilmen Went Over the Street Improvements Today.

County Commissioners French, George and Bowman arrived in the city this morning for the purpose of viewing the location of the proposed Dry Run bridge and looking over the recent improvements made to the roads leading out of the city.

Councilmen Peach, Marshall, Cripps, Nice and Arnold took a day off, secured the engineer and getting enough carriages to go round started to the East End with the county officials. They spent the morning viewing the proposed location for the new bridge and casting eagle glances at Pennsylvania avenue as they came back. They arrived home a few minutes before 1 o'clock covered with dust, but having the satisfaction of knowing that they had finished a portion of their work. This afternoon the same parties took a tour of Jethro street, Trentvale street, Calcutta road and Lisbon street, and the commissioners were shown the immense improvements finished and contemplated. The commissioners will arrive at their decision in regard to the bridge and roads when they return home and have a session.

### STEEL CEILINGS.

Being Placed in Auditorium of the M. P. Church—Work Will be Finished by June 1.

This afternoon workmen commenced placing the steel ceiling in the auditorium at the Methodist Protestant church. The contract will not be completed until June 1.

The official board of the church met early in the week to open bids for the repairing of the walls of the church, but the contract was not let. While the improvements are being made in the auditorium services will be held in the lecture room of the church. The cost of the improvements will amount to about \$750.

## HEROIC AMERICANS.

### MacArthur Sends Information of Fight at Catubig.

### OUR LOSS HEAVIEST OF THE WAR.

Little Garrison Tried to Escape, but Failed—Stood Off Rebels Until Relieved—Filipino Dead Strewed the Streets of the City.

WASHINGTON, May 17.—The officials of the war department, after waiting for nearly a week to hear something from General MacArthur, at Manila, confirmatory of the press report of the bloody three days' engagement at Catubig, which resulted in the heaviest loss of life the American army has sustained in any one engagement in the Philippines.

General MacArthur's cablegram in reply was as follows:

"MANILA, May 16.  
"With reference to your tele. of May 11th. The rumor of engagement in Samar, reported cablegram of General Otis, May 4, has been confirmed by reports recently received from Henry T. Allen, Forty-third regiment, United States volunteer infantry, commanding Samar island. That detachment of 30 men stationed at Catubig were attacked April 15 by 600 men, with 200 rifles and one cannon. Our men quartered in convent, which was fired next day by burning hemp thrown from adjoining church. Detachment attempted escape by river. Men getting into boat were killed; remaining men entrenched themselves near river and held out two days longer, facing most adverse circumstances until rescued by Lieutenant Sweeney and ten men. Over 200 of attacking party (many of them are reported to have come from Luzon island) reported killed and many wounded. Lieutenant Sweeney reported streets covered with dead insurgents.

"Killed—Sergeants Dustin L. George and William J. Hall, Corporals Herbert H. Edwards and John F. J. Hamilton, cook, Burton E. Hess; musician, Burton R. Wagner; privates, Treflie Pomslow, Otto R. Loose, Stephen Appert, Joseph Noel, John E. Kuhn, Ralph H. Zim, Edward Braman, Chester A. Conklin, Walter E. Collins, Joseph J. Kerins, Henry Dumas, Philip Saling and Geo. A. ### G. A. R. HOME BURNED.

Pennsylvania Institution Destroyed Near Pittsburgh—Heroic Rescues of Aged Inmates.

PITTSBURGH, May 17.—Fire, with scarcely any water to combat it, made complete ruin of the handsome home at Hawkins station, Pennsylvania railroad, maintained by the Ladies of the Grand Army of the Republic of Pennsylvania for the support of widows, mothers and orphans of Civil war soldiers. The blaze was spreading rapidly when discovered, at a time when all of the 40 aged inmates were indoors.

Half of this number are palsied from age, others crippled with rheumatism and nearly all too helpless to walk. The presence of fire caused a general collapse and 13 had to be lifted and carried to places of safety. There were some brave rescues and possible death was braved.

The loss to building and contents will possibly reach \$16,000. This is almost covered by insurance. Judge William G. Hawkins has turned a large house of his estate over for the temporary use of the inmates until a permanent building can be secured.

### M'NEILL PROVED A HERO.

British Ex-Gunner Saved Lives In Chicago Fire—Three Persons Perished.

CHICAGO, May 17.—Three persons lost their lives in the burning of the Hotel Helene, on Fifty-third street. The injured number 15, of whom four are in a precarious condition.

The Dead.

Charlotte Peterson, dining room girl,

found in her room, burned to a crisp. Lena Pearson, dining room girl, found beside Miss Peterson.

S. G. McHadden, so badly burned that he died at the hospital.

The dangerously injured are W. E. Horn, E. E. Tarbox, Elizabeth Florence and Mrs. T. D. Allen. The two men are badly burned, and the women were injured by jumping from the high windows.

The destruction of the hotel was replete with daring rescues and narrow escapes, in which James McNeill earned himself the title of hero. He was a porter in the hotel. He was formerly a gunner on an English war vessel.

### A DAY IN WALL STREET.

Railroad Stocks Made a Good Showing. More Gold Engaged For Shipments.

NEW YORK, May 17.—Stocks of railroad companies made a demonstration of persistent strength in the stock market Wednesday. The stocks of western railroads were easily the leaders in the movement, and the buying was attributed to western account, as for several days past. The western buying is believed in Wall street to be covering an outstanding short interest, prompted by the good crop weather and favorable conditions in the winter wheat belt.

The steel stocks all rebounded sharply on covering by shorts and official denials of assertions that general shut-downs were imminent on account of prospective demands for increase of wages. The early weakness of Sugar, People's Gas, the Tobacco stocks and other industrials was met by denials of various rumors which accompanied the decline. Recoveries ensued on the demand from the bears caught short. Besides this weakness in the industrial list the market had to contend with the announcement of gold engagements for export today, fully a million dollars in excess of the preliminary estimates.

Today's shipments foot up fully \$3,150,000 for France. The fact that so large a shipment should be made in face of the considerable decline in discount rates in Europe raised some uneasiness, lest the apparent ease of money abroad was fictitious and unstable. But the continued ease of money here relieved this apprehension. Call loan rates fell to 1½ per cent, and the gains by the banks from the sub-treasury and on the interior movement of currency will entirely offset the gold export.

Although the advance in stocks was generally wiped out when the gold engagements were announced, the upward movement was resumed upon further consideration of the circumstances. It is the conviction in Wall street that only a small amount, if any gold, can be shipped to London on Saturday's steamer under present conditions.

The bond market was dull and only partly shared in the strength of stocks. Total sales, par value, \$1,133,000. United States refunding 2s, when issued, declined ¼ and the 3s ½ in the bid price.

### Chicago Grain and Provisions.

CHICAGO, May 17.—Corn was the leading deal on the board of trade Wednesday. Renewed support from bulls and covering by shorts, together with strong cables, caused a gain for the day of 1½c. Wheat was strong on the unfavorable weather, closing ½c improved. Oats closed ¾c higher and provisions from 7½c better in ribs to 20c up in pork.

### Kansas Republican Convention.

TOPEKA, Kan., May 27.—The Republican state convention here renominated the present state officers unanimously. The only balloting was on candidates for electors, for congressman-at-large and for M. A. Lowe for delegate to Philadelphia. The factional war in the party was not involved in the vote of electors, but the followers of Cyrus Leland, national committeeman, made a fight on Lowe, and were overwhelmed named as national committeeman to succeed Leland.

### New A. M. E. Bishops to be Elected.

COLUMBUS, May 17.—The majority report of the committee on episcopacy of the A. M. E. general conference provided for the election of five additional bishops, and set May 17 for the election, and struck out the rule in the discipline prohibiting ministers from wearing robes. It was adopted.

HAVANA, May 17.—Postmaster E. R. Thompson, of the Havana local office, has signed a sworn statement in which he says that Sept. 16 last, being in need of money, he took from the money order funds, giving his memorandum as a receipt for the same. When the inspections were held Mr. Thompson ordered a clerk in charge of the money order department to place remittances received that day, which would not have to be accounted for until the following day, sufficient to cover the amount of his receipt, which was then withdrawn until after the inspection. This was kept up until April 7, when the special agents unexpectedly discovered the receipt, which Mr. Thompson then paid.

He also admits that Charles F. Neely, late financial agent of posts at Havana, endorsed a bill for \$350, which Thompson had discounted by the North American Trust company. Thompson admits other irregularities in connection with his department.

Warrants were issued for the arrest of Thompson, W. H. Reeves, deputy auditor of the island, and Edward Moya and Jorge Mascaro, Cuban clerks in the stamp department, and all were lodged in the Vivas, the tombs of Havana. This was done under the advice of the postal inspectors, who had arrived. It is considered now that Reeves is equally guilty with Neely.

General Wood felt, as did the postal inspectors, that it would be better to have suspected persons arrested and to give them an opportunity to obtain bail, than to keep them indefinitely under close supervision at a time when the detectives are badly needed for other work.

More arrests are expected. WASHINGTON, May 17.—Fourth Assistant Postmaster General Bristow received his final instructions and left for Tampa, Fla., from which place he will sail for Havana, reaching there early Saturday morning. The only person to accompany Mr. Bristow was his private secretary. It was decided at the department not to make public at present the instructions given Mr. Bristow.

Representative Hay, of Virginia, introduced in the house a resolution requesting the postmaster general for information as to whether Director Rathbone had reported that the accounts of postal officials in Cuba were found to be correct April 23. The postmaster general would make no statement in regard to the subject.

It is a fact that Director General Rathbone did forward a typewritten copy of a report made by Special Agents George O. Seybold and William T. Neale, stating that the accounts of C. W. F. Neely, financial clerk of the postal department, were correct on that date.

### ADMINISTRATION IN CUBA.

Conduct of Affairs in the Island Discussed in the Senate—Bacon Advocated Investigation.

WASHINGTON, May 17.—Discussion of the administration of affairs in Cuba by agents of the United States occupied the attention of the senate during a part of the session. Mr. Bacon (Ga.) addressed the senate at length on his resolution directing the committee on relations with Cuba to make an investigation of the conduct of financial affairs of the island. He said it was due the people of this country to know just how affairs in the island were being conducted, and since the disclosures of the past few days had been made with respect to the alleged misappropriation of funds in the postal service, the obligation upon congress to make an investigation was doubly heavy.

He urged that the honor of the country depended upon its being able to clear away the fraud and corruption which, it was charged, had been discovered. He insisted that the government of the United States had no authority in Cuba, and demanded to know how it proposed to redeem its pledge and leave the government of the island to its inhabitants.

# M'KINLEY'S CRITICS.

## Anti-Canteen Fight Won In the M. E. Committee.

### FRIENDS WILL OPPOSE ADOPTION.

The Question to Be Disputed on the Floor of the Conference — Secretary Long Eulogized For His Stand on the Liquor Question.

CHICAGO, May 17.—The friends of President McKinley in the temperance committee of the conference, who had made a losing fight against the adoption of certain paragraphs in the report which criticize the president and censure him for his acceptance of the Griggs decision in the anti-canteen law, will take the fight to the floor of the conference in the form of a minority report, substituting other paragraphs for the objectionable sentiments.

The majority report of the sub-committee on all matters before it, including the criticism of the president, was adopted by the general committee, after a long fight. The report endorses total abstinence on the part of the members and ministers of the church and fraternity with other societies and organizations in the cause of temperance.

In regard to the liquor traffic, it endorsed the sentiment of the episcopal address that "it can never be legalized without sin," and declared that licensing it legalizes it. In contrast to the condemnation of the president on the anti-canteen matter was an eulogy of Secretary Long by banishing liquor from the American naval ships and yards.

Delegate William A. Odell, of the Oregon conference, introduced a substitute report to the effect that the energies of the church should be bent only to the salvation of souls. It was voted down.

Two additional missionary bishops, with authority equal with those already in the field, will be elected by the general conference to assist Bishop Thornburn in Southern Asia, if the recommendation of the committee on episcopacy is adopted.

The report of the committee will be presented to the conference today by Dr. T. B. Neely. Dr. J. M. Buckley, chairman of the committee, objected to that provision of the recommendation which makes all the missionary bishops co-ordinate in authority on constitutional grounds and gave notice that he would present a minority report.

Bishop Walden appeared before the committee on episcopacy to answer charges brought by the Wisconsin conference that he had exceeded his authority two years ago when he denied preachers the right to submit a petition in favor of a candidate for presiding elder.

In defense of his action Bishop Walden called attention to the fact that there is nothing in the law of the church which grants ministers the right to petition.

After considerable discussion the subject was referred to a sub-committee, composed of J. C. W. Coxe, T. H. Murray, Dr. T. B. Neely, L. M. Shaw and Dr. L. F. Whitlock.

## VOTING FOR BISHOPS.

Two More Ballots Taken at the M. E. Conference In Chicago, Without Result.

CHICAGO, May 17.—The Methodist Episcopal general conference took two more ballots for the selection of two additional members of the board of general superintendents. Tuesday's ballot and the first one Wednesday resulted in no choice, none of the candidates receiving the necessary two-thirds vote of the conference. The result of the third ballot will be announced to-day. Dr. J. F. Berry, editor of The Epworth Herald, and Dr. J. W. Hamilton, of New York, showed the greatest strength on the second ballot; Dr. J. W. E. Bowen, of Gammon Theological seminary, the colored candidate, showing considerable falling off in his vote. The only surprise developed was in the small vote of some of the most prominent candidates.

The proceedings Wednesday were enlivened by a sharp discussion which arose over charges made by Judge Oliver H. Horton, of the local entertainment committee, that delegates had insulted ushers, overridden policemen and beaten their way into the conference, after giving away their admission tickets. He asked that action be taken in the matter, and after several delegates had expressed their opinions freely, Judge Horton was instructed to use his best judgment in guarding the interests of the delegates.

The result of the third ballot for bishops, it is said, will show a gain of upwards of 40 votes for Dr. J. F. Barry and a corresponding loss for Dr. Bowen, the colored candidate. Many of the leaders declare it will take at least six more ballots for any of the candidates to secure the requisite two-thirds vote and that the balloting for bishop may consume a week's time.

## THE G. P. ASSEMBLY.

Church Delegates Are to Convene at Chattanooga, Tenn., Today—Subjects to Be Considered.

CHATTANOOGA, May 17.—The Cumberland Presbyterian general assembly will convene in this city today.

Among the most important questions to come before the assembly will be the twentieth century million-dollar endowment for church colleges and the twentieth century Sunday school movement, by which it is proposed to add 50,000 pupils to the Sunday schools of the Cumberland Presbyterian church during the next year.

## BRYAN'S CHANCES GOOD.

Arthur Sewall So Declared — Said He Would Not Be In the Race For Vice President.

NEW YORK, May 17.—Arthur Sewall, of Maine, who was the candidate for vice president on the Democratic ticket in 1896 with W. J. Bryan, in an interview here, said: "I think Mr. Bryan's chances for election are bright—very bright. In fact, I think he will have a better chance than he had in 1896. Of course, this is upon the supposition, generally admitted, that he will be the candidate."

"Would you accept the democratic nomination for vice president?" he was asked.

"No," said Mr. Sewall, promptly and emphatically. "I am out of it; I am positively out of it."

"Who will the convention nominate for the presidency? I cannot tell. It would be a mistake to send the nominee in New England. Our candidate for vice president should be chosen with the idea of getting electoral votes."

## TCWNE'S NOMINATION GOOD POLICY.

Such an Assertion Made by Senator Butler, In an Interview.

WASHINGTON, May 17.—Senator Butler, chairman of the national committee of the People's party, was asked if it was true, as has been reported, that both Mr. Bryan and Mr. Towne had expressed a preference that the People's party national convention should not nominate a vice presidential candidate. He replied:

"I have been told that it is true, but it was the judgment of the convention that the best way to elect both of them was to nominate. It must be remembered that neither Mr. Bryan nor Mr. Towne is intimately acquainted with the situation as to the Populist vote of the convention. Mr. Bryan could not be elected by disbanding or appealing to disband the People's party. To have done so would have lost him ten Populist votes for every Gold Democratic vote that he would have won back to him. In short, the convention did the thing that was necessary to be done to insure the election of Mr. Bryan."

## Broke Away From the Bosses.

KANSAS CITY, May 17.—The Missouri Republican convention selected for delegates at-large to the national convention at Philadelphia: D. M. Houser and D. P. Dyer, of St. Louis; James L. Minnis, of Carrollton; C. G. Burton, of Nevada. Alternates-at-large: Louis Woods and J. C. Chastine, of Kansas City; O. M. Wood, of St. Louis; H. H. Walker, of St. Joseph. Electors-at-large: J. W. Moore and Joseph Black. For governor, Joseph Flory, of St. Louis, was nominated, also a state ticket. The convention broke away from the bosses in nominating Dyer, the first time in about 20 years.

## ST. LOUIS STRIKE STILL ON.

Strikers Refused to Ratify an Agreement Arranged.

ST. LOUIS, May 17.—The executive committee of the strikers rejected the agreement arrived at between the Transit company and the strikers' grievance committee. The strike is still on.

## For a Pension to Mrs. Lawton.

WASHINGTON, May 17.—Among the bills passed by the senate was one granting a pension of \$100 per month to the widow of General Lawton.

## To Incorporate Red Cross.

WASHINGTON, May 17.—The house accomplished little beside passing the senate bill to incorporate the American National Red Cross.

## Anti-Canteen Fight Won In the M. E. Committee.

### FRIENDS WILL OPPOSE ADOPTION.

The Question to Be Disputed on the Floor of the Conference — Secretary Long Eulogized For His Stand on the Liquor Question.

CHICAGO, May 17.—The friends of President McKinley in the temperance committee of the conference, who had made a losing fight against the adoption of certain paragraphs in the report which criticize the president and censure him for his acceptance of the Griggs decision in the anti-canteen law, will take the fight to the floor of the conference in the form of a minority report, substituting other paragraphs for the objectionable sentiments.

The majority report of the sub-committee on all matters before it, including the criticism of the president, was adopted by the general committee, after a long fight. The report endorses total abstinence on the part of the members and ministers of the church and fraternity with other societies and organizations in the cause of temperance.

In regard to the liquor traffic, it endorsed the sentiment of the episcopal address that "it can never be legalized without sin," and declared that licensing it legalizes it. In contrast to the condemnation of the president on the anti-canteen matter was an eulogy of Secretary Long by banishing liquor from the American naval ships and yards.

Delegate William A. Odell, of the Oregon conference, introduced a substitute report to the effect that the energies of the church should be bent only to the salvation of souls. It was voted down.

Two additional missionary bishops, with authority equal with those already in the field, will be elected by the general conference to assist Bishop Thornburn in Southern Asia, if the recommendation of the committee on episcopacy is adopted.

The report of the committee will be presented to the conference today by Dr. T. B. Neely. Dr. J. M. Buckley, chairman of the committee, objected to that provision of the recommendation which makes all the missionary bishops co-ordinate in authority on constitutional grounds and gave notice that he would present a minority report.

Bishop Walden appeared before the committee on episcopacy to answer charges brought by the Wisconsin conference that he had exceeded his authority two years ago when he denied preachers the right to submit a petition in favor of a candidate for presiding elder.

In defense of his action Bishop Walden called attention to the fact that there is nothing in the law of the church which grants ministers the right to petition.

After considerable discussion the subject was referred to a sub-committee, composed of J. C. W. Cox, T. H. Murray, Dr. T. B. Neely, L. M. Shaw and Dr. L. F. Whitlock.

### VOTING FOR BISHOPS.

Two More Ballots Taken at the M. E. Conference in Chicago, Without Result.

CHICAGO, May 17.—The Methodist Episcopal general conference took two more ballots for the selection of two additional members of the board of general superintendents. Tuesday's ballot and the first one Wednesday resulted in no choice, none of the candidates receiving the necessary two-thirds vote of the conference. The result of the third ballot will be announced to-day. Dr. J. F. Berry, editor of The Epworth Herald, and Dr. J. W. Hamilton, of New York, showed the greatest strength on the second ballot; Dr. J. W. E. Bowen, of Gammon Theological seminary, the colored candidate, showing considerable falling off in his vote. The only surprise developed was in the small vote of some of the most prominent candidates.

The proceedings Wednesday were enhanced by a sharp discussion which arose over charges made by Judge Oliver H. Horton, of the local entertainment committee, that delegates had insulted ushers, overridden policemen and beaten their way into the conference, after giving away their admission tickets. He asked that action be taken in the matter, and after several minutes had expressed their opinion, Judge Horton was instructed by the best judgment in guarding the interests of the delegates.

The result of the third ballot for bishops, it is said, will show a gain of upwards of 40 votes for Dr. J. F. Barry and a corresponding loss for Dr. Bowen, the colored candidate. Many of the leaders declare it will take at least six more ballots for any of the candidates to secure the requisite two-thirds vote and that the balloting for bishop may consume a week's time.

### THE G. P. ASSEMBLY.

Church Delegates Are to Convene at Chattanooga, Tenn., Today—Subjects to Be Considered.

CHATTANOOGA, May 17.—The Cumberland Presbyterian general assembly will convene in this city today.

Among the most important questions to come before the assembly will be the twentieth century million-dollar endowment for church colleges and the twentieth century Sunday school movement, by which it is proposed to add 50,000 pupils to the Sunday schools of the Cumberland Presbyterian church during the next year.

### BRYAN'S CHANCES GOOD.

Arthur Sewall So Declared — Said He Would Not Be in the Race For Vice President.

NEW YORK, May 17.—Arthur Sewall, of Maine, who was the candidate for vice president on the Democratic ticket in 1896 with W. J. Bryan, in an interview here, said: "I think Mr. Bryan's chances for election are bright—very bright. In fact, I think he will have a better chance than he had in 1896. Of course, this is upon the supposition, generally admitted, that he will be the candidate."

"Would you accept the democratic nomination for vice president?" he was asked.

"No," said Mr. Sewall, promptly and emphatically. "I am out of it; I am positively out of it."

"Who will the convention nominate for the presidency? I cannot tell. It would be a mistake to send the nominee in New England. Our candidate for vice president should be chosen with the idea of getting electoral votes."

### TCWNE'S NOMINATION GOOD POLICY.

Such an Assertion Made by Senator Butler, in an Interview.

WASHINGTON, May 17.—Senator Butler, chairman of the national committee of the People's party, was asked if it was true, as has been reported, that both Mr. Bryan and Mr. Towne had expressed a preference that the People's party national convention should not nominate a vice presidential candidate. He replied:

"I have been told that it is true, but it was the judgment of the convention that the best way to elect both of them was to nominate. It must be remembered that neither Mr. Bryan nor Mr. Towne is intimately acquainted with the situation as to the Populist vote of the convention. Mr. Bryan could not be elected by disbanding or appearing to disband the People's party. To have done so would have lost him ten Populist votes for every Gold Democratic vote that he would have won back to him. In short, the convention did the thing that was necessary to be done to insure the election of Mr. Bryan."

### Broke Away From the Bosses.

KANSAS CITY, May 17.—The Missouri Republican convention selected for delegates at-large to the national convention at Philadelphia: D. M. Houser and D. P. Dyer, of St. Louis; James L. Minnis, of Carrollton; C. G. Burton, of Nevada. Alternates at-large: Louis Woods and J. C. Chastine, of Kansas City; O. M. Wood, of St. Louis; H. H. Walker, of St. Joseph. Electors at-large: J. W. Moore and Joseph Black. For governor, Joseph Flory, of St. Louis, was nominated, also a state ticket. The convention broke away from the bosses in nominating Dyer, the first time in about 20 years.

### ST. LOUIS STRIKE STILL ON.

Strikers Refused to Ratify an Agreement Arranged.

ST. LOUIS, May 17.—The executive committee of the strikers rejected the agreement arrived at between the Transit company and the strikers' grievance committee. The strike is still on.

The new Pullman chair cars, which were placed on trains 337 and 338 a few weeks ago, have been taken off the road and two other Pullman chair cars have been substituted. These cars are not furnished as well as the new cars.

The clerks at the local freight office have been compelled to work late at night during the past 10 days on account of the increased business now being handled by the company in this city. The clerks claim that there is sufficient work to warrant the company putting on several extra clerks.

## A MAN OF SCHEMES.

THE GRAND PROMOTER EXPLAINS MATTERS TO HIS LANDLADY.

His Little Account Is Under Discussion, and He Shows Her That She Is Flying Along the Road to Wealth Thus He Dodges a Calamity.

[Copyright, 1900, by C. B. Lewis.]

The grand promoter expected it. For the past week he had observed many signs that his landlady had lost confidence in him and was working up her nerve to present him a bill. His cheerfulness at the dinner table almost bordered on hilarity, and as he left the table he executed a flank movement by saying:

"My dear woman, if it is not asking too much, I wish you would hand me my account this evening. I don't want to occupy your valuable time nor put you to any extra trouble, but it seems to me that we ought to have a settlement without further delay."

He hadn't been in his room two minutes when the landlady followed. She had the bill in her hand and the light of anticipation in her eyes.

"Ah!" said the major as he took the bill from her hand. "Nothing like promptness in business affairs. Let me see. The bill itself is made out in proper form. The chirography is fair. Room and board for ten weeks at \$7 per week makes exactly \$70, and there is no mistake there. My dear woman, permit me to congratulate you. You have a business head on you. Had you

"AND YOU MEAN I OWE YOU \$930?"

needed this money before you would have asked for it. Not having any need of it and having perfect confidence in my financial integrity, you have held the bill till this date. Exactly ten weeks and \$70."

"Yes, sir, \$70," replied the landlady as she moved about uneasily.

"While it is only a trifle," continued the major as he looked the bill over again, "it should be paid and the books balanced—that is, if there is anything coming to you it should be paid at once; if there is anything coming to me I'll give you 30 or 60 days to square up."

"But how can there be anything coming to you?" protested the landlady.

"We can't tell until we have figured. My dear woman, my treasure of a landlady, let me say at the very outset that I am perfectly satisfied with your table, and as for my room kings have had far worse. If you will kindly go over the past in your memory you will admit that I have not made one single kick; satisfied, my dear woman, perfectly satisfied."

"Then the bill is all right?"

"Perfectly all right—couldn't be better. Let me see. When I organized the Universal Hand Organ trust I let you in on the ground floor for \$50,000 worth of stock, I believe. That stock ought to have given you dividends of at least \$5,000 a year."

"But it didn't, major. The whole thing busted up, you know."

"Ah, I remember. It was not a bust up, but the Hand Organ trust was consolidated with the Great American Antiblizzard syndicate. I haven't the books here, but if my memory serves me right I presented you with \$100,000 worth of stock. If your annual income from that stock has reached the sum of \$10,000—if you have been enabled to purchase—"

"But I never saw any stock," protested the landlady. "You said something about it one day, but a week later you claimed that you had dropped the scheme for a better thing. You owe for ten weeks."

"Let me see," mused the major—"let me see. Did I drop the Hand Organ and Antiblizzard trust for a surer thing? Ah, it comes back to me! Yes; we let go of it to take up and push to success

the International Nursing Bottle monopoly. Object was to control the manufacture and sale of all the nursing bottles in the world. Any mother who refused to buy one of our bottles had to feed her infant from a trough. Each and every one of our bottles was provided with a squirt gun, and when the infant wasn't filling up on milk he was squirting at flies and developing his marksmanship. That monopoly was capitalized at \$50,000,000, I believe. You were let in on the ground floor. As my landlady I took you in first of all. My dear woman, if your dividends on that stock—"

"But I haven't had any. That was another of your schemes that busted."

The major looked at her for a moment in doubt and perplexity, but then his face cleared, and, reaching for her hand, he shook it heartily and exclaimed:

"My dear woman, what a business head you have on your shoulders—what a head! It is no wonder that your landlord never has to come twice for his rent and that the fame of your table has spread abroad through the land. Let me assure you that I am not only satisfied with everything up to date, but I mean to continue on with you indefinitely—for years and years."

"But you must pay. I can't run my house unless my boarders pay."

"While perfectly assured that the International Nursing Bottle monopoly would pay 20 per cent dividends," said the major as he walked about, "we decided to drop it for a better thing. You must know the difference between 20 and 40 per cent profit—you surely must."

"Of course I do."

"Then I needn't go into details. You will see at once why we went into the Physical Pick and Ax Handle syndicate. It was the difference between 20 and 40 per cent. That organization was perfected only three days ago, and I have seized the earliest opportunity to talk with you about it. You are to come in on the ground floor. When Major Crofoot gets hold of a good thing, he remembers his friends. Not only have you as my landlady fed and lodged me on the best in the land, but—"

"But you are behind ten weeks," she put in.

"But, my dear woman, you did not stop there. You showed your confidence in my integrity by allowing my indebtedness to accumulate until it has finally reached the figure of \$70. Where can such another landlady be found? Who will point me out another such case of financial confidence? But you shall be rewarded. People who repose trust in Major Crofoot cast their bread upon the waters to have it returned 20 times over. You will remember that this is an interview of my own seeking. Had I not sought it you would have let the bill run on for weeks and months yet."

"No, I wouldn't!" exclaimed the woman. "I've been trying to catch you for the last two weeks!"

"But I sought the interview," serenely continued the promoter. "I brought about this meeting in order that we might balance the books. My dear woman, you are a stockholder in the Physical Pick and Ax Handle trust. You are in on the ground floor. I have set aside for you \$10,000 worth of stock at 10 per cent of its face value. That's \$1,000. You know how it is when a man strikes a blow with pick or ax. He grunts. We make all our handles hollow. They do the grunting and save the man's vitality—makes the labor 10 per cent easier, and every laborer wants to work 11 hours per day. In six months we shall be supplying the world—profit of 10 cents in every handle and 1,000,000,000 used every year."

"But this ten weeks' bill?" she insisted.

"Yes, we now come to the bill. Your ground floor stock comes to \$1,000. Take \$70 from that, and we have \$930 left. In other words, you owe me \$930. But take your time, woman—take your time. Take 30, 60 or 90 days if you will. I have confidence in you."

"And you mean I owe you \$930?"

"As you see, my dear woman—as you see. Look over the figures for yourself—exactly \$930, and you needn't worry about it. Our first call on the stockholders is only for 3 per cent, and if you haven't the money I'll lend it to you. And that's all tonight, I believe."

"But I—I don't understand!"

"But you will after thinking it over. Run along now and think. Plain as day after a little reflection. Don't want to push you out, you know, but really I'm very busy, and you also want to figure it out. Don't worry—and don't worry, and good night to you."

#### Bridge Builders' Fright.

Bridge building is a perilous business, and no insurance company will take any risk on the lives of superstructure workers. There is one horrible sensation known to superstructure workers. It is something like stage fright.

"I know once," said one of them, "when I wasn't up more than 140 feet, a sudden feeling came over me that I couldn't get down. I looked down, and there was a swift tide swirling around the edges of the piers. It seemed to me I should surely be killed. I clasped both arms around the beam on which I was working and lay there, just clinging to it, for 20 minutes. Luckily for me, the foreman, who was near me, saw what was the matter and had sense enough not to speak to me. If he had, I know I should certainly have fallen off. He kept on working, and I clung helplessly to the beam. Finally, in a gruff voice, he growled at me: 'Say, git out o' there! I want to put a river there.' And I, obedient to an instinct of duty, found myself moving along. The feeling passed away as I did move and didn't come back."

"When I was in Peru 'building bridges," said an engineer, "I did not lose my head at work, but I more than once woke up during the night hanging to the sides of the bed in desperation of fear to keep from falling in a nightmare."—Boston Herald.

#### All Fools' Day.

The custom of playing pranks on April fools' day probably had its origin in France, the first nation to begin the new year Jan. 1 instead of March 25. Before the change April 1 was the day when the merrymaking of the New Year's celebration culminated in the paying of gifts and visits in return for those already bestowed. When the reformed calendar in 1564 made the 1st of January the beginning of the new year, April 1 was the time for pretended gifts and visits of mock ceremony to make fools of those who had forgotten the change in dates.

The Romans had a holiday similar in character to this, although not coming at the same time of year, the saturnalia, and in Hindustan the feast of the Huli, on March 31, has for its chief diversion the sending of people on fruitless errands.

In Scotland they have a trick for April fools' day which never grows stale. If a fellow can be found simple enough to undertake it, he is given a note to carry to a certain person. He reads it and says it is not for him, but that he is to go to—naming another man—and from there he is sent to another and so on until the bearer grows tired or sees a light. The note contains the lines:

This is the first of April;  
Hunt the gowk another mile.

#### Egg Superstitions.

There are many superstitions about the egg. In Scotland and Ireland children are taught by their nurses to crush the shell after eating an egg or to push the spoon through the bottom in the form of a cross, showing a lingering relic of the once general superstitious belief that witches lived in eggshells and made boats of them, casting spells upon the household.

In Italy it was believed that an egg laid by a white hen in a new nest on Easter day would cure pains in the head or stomach; that broken in a vineyard it would prevent its suffering from hail or similarly would save a field from frost, and its possession gave one the power to see witches. It was also believed that an egg laid on Good Friday, thrown on the fire, would extinguish it, while the devil would be killed if shot with an egg laid on Christmas.—Self Culture Magazine.

#### Dewey's Back In Washington.

WASHINGTON, May 17.—Admiral and Mrs. Dewey returned to Washington from their western trip. The depot was deserted when the Dewey special pulled in during the hottest hour of the day. A carriage was waiting, and the admiral and Mrs. Dewey, after making some visits in the city, drove at once to Bouvoir, their summer home. All the members of the party were sunburned, the admiral being almost as brown as on his return from Manila. He seemed livelier and more energetic than usual, evidently being much pleased with his trip. His only expression of opinion on the subject was that it had been "perfectly charming" and "very enjoyable."

#### LOCAL BREVITIES.

##### Our Artist.

She's a daisy, beyond peradventure, Handsome and witty and bright; A lightning change artist in fashion, And will make your heart thrill with delight; She resides in this pottery center, Is a charmer in form and in face; And the hearts of her victims are aching To capture this Artist in Grace.

PEGEE COOLEY.

The Chester Junior Mechanics this evening will visit the Mechanics of Wellsville.

The Junior Rechabites, at their meeting last evening initiated two candidates.

O. N. Ralston left for Sebring this morning, where he will take a position at the Oliver China pottery.

The African M. E. Sunday school convention for the Beaver Falls district will be held in this city in July.

The sample room at the Murphy pottery has been renovated and painted. The room is now one of the neatest in the city.

Clay Berger, station agent at Irondale, spent last evening in the city visiting friends. He was formerly a clerk in the local freight office.

At the new pottery at Sebring work is progressing rapidly and the clay shops, slip house, engine room and mould room are now under roof.

William Moore, who has been working at Frederickstown for several months, left this morning for Salineville, where he has taken a position.

Guy Mackey, of Lawrence street, West End, who has been very ill at his home with typhoid fever, is recovering and will be able to be out within a few days.

William Tritt, manager of the Sebring pottery in this city, left this morning for Sebring, where he spent the day on business connected with the Oliver China pottery.

Louis B. Dannemiller, of Canton, formerly a member of Company F, Eighth Ohio Volunteer Infantry, has been engaged as starter for the races that will be held in this city May 30.

J. F. Bradshaw, of Washington, Pa., was in the city yesterday calling on his many friends. Mr. Bradshaw is a representative of the National Pottery company throughout western Pennsylvania.

Mr. and Mrs. George Heinman, of Pittsburg, who had been spending several days in this city visiting friends, returned to their home in Pittsburg yesterday afternoon. The couple were recently married.

The new Pullman chair cars, which were placed on trains 337 and 338 a few weeks ago, have been taken off the road and two other Pullman chair cars have been substituted. These cars are not furnished as well as the new cars.

The clerks at the local freight office have been compelled to work late at night during the past 10 days on account of the increased business now being handled by the company in this city. The clerks claim that there is sufficient work to warrant the company putting on several extra clerks.

## A MAN OF SCHEMES.

THE GRAND PROMOTER EXPLAINS MATTERS TO HIS LANDLADY.

His Little Account Is Under Discussion, and He Shows Her That She Is Flying Along the Road to Wealth Thus He Dodges a Calamity.

[Copyright, 1900, by C. B. Lewis.]

The grand promoter expected it. For the past week he had observed many signs that his landlady had lost confidence in him and was working up her nerve to present him a bill. His cheerfulness at the dinner table almost bordered on hilarity, and as he left the table he executed a flank movement by saying:

"My dear woman, if it is not asking too much, I wish you would hand me my account this evening. I don't want to occupy your valuable time nor put you to any extra trouble, but it seems to me that we ought to have a settlement without further delay."

He hadn't been in his room two minutes when the landlady followed. She had the bill in her hand and the light of anticipation in her eyes.

"Ah!" said the major as he took the bill from her hand. "Nothing like promptness in business affairs. Let me see. The bill itself is made out in proper form. The chirography is fair. Room and board for ten weeks at \$7 per week makes exactly \$70, and there is no mistake there. My dear woman, permit me to congratulate you. You have a business head on you. Had you

"AND YOU MEAN I OWE YOU \$930?"

needed this money before you would have asked for it. Not having any need of it and having perfect confidence in my financial integrity, you have held the bill till this date. Exactly ten weeks and \$70."

"Yes, sir, \$70," replied the landlady as she moved about uneasily.

"While it is only a trifle," continued the major as he looked the bill over again, "it should be paid and the books balanced—that is, if there is anything coming to you it should be paid at once; if there is anything coming to me I'll give you 30 or 60 days to square up."

"But how can there be anything coming to you?" protested the landlady.

"We can't tell until we have figured. My dear woman, my treasure of a landlady, let me say at the very outset that I am perfectly satisfied with your table, and as for my room kings have had far worse. If you will kindly go over the past in your memory you will admit that I have not made one single kick; satisfied, my dear woman, perfectly satisfied."

"Then the bill is all right?"

"Perfectly all right—couldn't be better. Let me see. When I organized the Universal Hand Organ trust I let you in on the ground floor for \$50,000 worth of stock, I believe. That stock ought to have given you dividends of at least \$5,000 a year."

"But it didn't, major. The whole thing busted up, you know."

"Ah, I remember. It was not a bust up, but the Hand Organ trust was consolidated with the Great American Antilizzard syndicate. I haven't the books here, but if my memory serves me right I presented you with \$100,000 worth of stock. If your annual income from that stock has reached the sum of \$10,000—if you have been enabled to purchase!"

"But I never saw any stock," protested the landlady. "You said something about it one day, but a week later you claimed that you had dropped the scheme for a better thing. You owe for ten weeks."

"Let me see," mused the major—"let me see. Did I drop the Hand Organ and Antilizzard trust for a surer thing? Ah, it comes back to me! Yes; we let go of it to take up and push to success

the International Nursing Bottle monopoly. Object was to control the manufacture and sale of all the nursing bottles in the world. Any mother who refused to buy one of our bottles had to feed her infant from a trough. Each and every one of our bottles was provided with a squirt gun, and when the infant wasn't filling up on milk he was squirting at flies and developing his marksmanship. That monopoly was capitalized at \$50,000,000, I believe. You were let in on the ground floor. As my landlady I took you in first of all. My dear woman, if your dividends on that stock—"

"But I haven't had any. That was another of your schemes that busted."

The major looked at her for a moment in doubt and perplexity, but then his face cleared, and, reaching for her hand, he shook it heartily and exclaimed:

"My dear woman, what a business head you have on your shoulders—what a head! It is no wonder that your landlord never has to come twice for his rent and that the fame of your table has spread abroad through the land. Let me assure you that I am not only satisfied with everything up to date, but I mean to continue on with you indefinitely—for years and years."

"But you must pay. I can't run my house unless my boarders pay."

"While perfectly assured that the International Nursing Bottle monopoly would pay 20 per cent dividends," said the major as he walked about, "we decided to drop it for a better thing. You must know the difference between 20 and 40 per cent profit—you surely must."

"Of course I do."

"Then I needn't go into details. You will see at once why we went into the Physical Pick and Ax Handle syndicate. It was the difference between 20 and 40 per cent. That organization was perfected only three days ago, and I have seized the earliest opportunity to talk with you about it. You are to come in on the ground floor. When Major Crofoot gets hold of a good thing, he remembers his friends. Not only have you as my landlady fed and lodged me on the best in the land, but—"

"But you are behind ten weeks," she put in.

"But, my dear woman, you did not stop there. You showed your confidence in my integrity by allowing my indebtedness to accumulate until it has finally reached the figure of \$70. Where can such another landlady be found? Who will point me out another such case of financial confidence? But you shall be rewarded. People who repose trust in Major Crofoot east their bread upon the waters to have it returned 20 times over. You will remember that this is an interview of my own seeking. Had I not sought it you would have let me bill run on for weeks and months yet."

"No, I wouldn't!" exclaimed the woman. "I've been trying to catch you for the last two weeks!"

"But I sought the interview," serenely continued the promoter. "I brought about this meeting in order that we might balance the books. My dear woman, you are a stockholder in the Physical Pick and Ax Handle trust. You are in on the ground floor. I have set aside for you \$10,000 worth of stock at 10 per cent of its face value. That's \$1,000. You know how it is when a man strikes a blow with pick or ax. He grunts. We make all our handles hollow. They do the grunting and save the man's vitality—makes the labor 10 per cent easier, and every laborer wants to work 11 hours per day. In six months we shall be supplying the world—profit of 10 cents in every handle and 1,000,000,000 used every year."

"But this ten weeks' bill?" she insisted.

"Yes, we now come to the bill. Your ground floor stock comes to \$1,000. Take \$70 from that, and we have \$930 left. In other words, you owe me \$930. But take your time, woman—take your time. Take 30, 60 or 90 days if you will. I have confidence in you."

"And you mean I owe you \$930?"

"As you see, my dear woman—as you see. Look over the figures for yourself—exactly \$930, and you needn't worry about it. Our first call on the stockholders is only for 3 per cent, and if you haven't the money I'll lend it to you. And that's all tonight, I believe."

"But I—I don't understand!"

"But you will after thinking it over. Run along now and think. Plain as day after a little reflection. Don't want to push you out, you know, but really I'm very busy, and you also want to figure it out. Don't worry—and don't worry, and good night to you."

#### Bridge Builders' Fright.

Bridge building is a perilous business, and no insurance company will take any risk on the lives of superstructure workers. There is one horrible sensation known to superstructure workers. It is something like stage fright.

"I know once," said one of them, "when I wasn't up more than 140 feet, a sudden feeling came over me that I couldn't get down. I looked down, and there was a swift tide swirling around the edges of the piers. It seemed to me I should surely be killed. I clasped both arms around the beam on which I was working and lay there, just clinging to it, for 20 minutes. Luckily for me, the foreman, who was near me, saw what was the matter and had sense enough not to speak to me. If he had, I know I should certainly have fallen off. He kept on working, and I clung helplessly to the beam. Finally, in a gruff voice, he growled at me: 'Say, git out of there! I want to put a rivet there.' And I, obedient to an instinct of duty, found myself moving along. The feeling passed away as I did move and didn't come back."

"When I was in Peru building bridges," said an engineer, "I did not lose my head at work, but I more than once woke up during the night hanging to the sides of the bed in desperation of fear to keep from falling in a nightmare."—Boston Herald.

#### All Fools' Day.

The custom of playing pranks on April fools' day probably had its origin in France, the first nation to begin the new year Jan. 1 instead of March 25. Before the change April 1 was the day when the merrymaking of the New Year's celebration culminated in the paying of gifts and visits in return for those already bestowed. When the reformed calendar in 1564 made the 1st of January the beginning of the new year, April 1 was the time for pretended gifts and visits of mock ceremony to make fools of those who had forgotten the change in dates.

The Romans had a holiday similar in character to this, although not coming at the same time of year, the saturnalia, and in Hindustan the feast of the Huli, on March 31, has for its chief diversion the sending of people on fruitless errands.

In Scotland they have a trick for April fools' day which never grows stale. If a fellow can be found simple enough to undertake it, he is given a note to carry to a certain person. He reads it and says it is not for him, but that he is to go to—naming another man—and from there he is sent to another and so on until the bearer grows tired or sees a light. The note contains the lines:

This is the first of April;  
Hunt the gowk another mile.

#### Egg Superstitions.

There are many superstitions about the egg. In Scotland and Ireland children are taught by their nurses to crush the shell after eating an egg or to push the spoon through the bottom in the form of a cross, showing a lingering relic of the once general superstitious belief that witches lived in eggshells and made boats of them, casting spells upon the household.

In Italy it was believed that an egg laid by a white hen in a new nest on Easter day would cure pains in the head or stomach; that broken in a vineyard it would prevent its suffering from hail or similarly would save a field from frost, and its possession gave one the power to see witches. It was also believed that an egg laid on Good Friday, thrown on the fire, would extinguish it, while the devil would be killed if shot with an egg laid on Christmas.—Self Culture Magazine.

#### Dewey's Back in Washington.

WASHINGTON, May 17.—Admiral and Mrs. Dewey returned to Washington from their western trip. The depot was deserted when the Dewey special pulled in during the hottest hour of the day. A carriage was waiting, and the admiral and Mrs. Dewey, after making some visits in the city, drove at once to Bouvoir, their summer home. All the members of the party were sunburned, the admiral being almost as brown as on his return from Manila. He seemed livelier and more energetic than usual, evidently being much pleased with his trip. His only expression of opinion on the subject was that it had been "perfectly charming" and "very enjoyable."

#### Date for Retrial of Roberts.

SALT LAKE, Utah, May 17.—County Attorney Putnam decided to retry B. H. Roberts on the charge of unlawful cohabitation Tuesday, 29th inst.
